BUG-00094048 The 'Disjoint', Within', and 'Contains' operators in the IRelationalOperator2 interface return incorrect results for certain geometries. BUG-000106927 In ArcGIS Desktop, the context menus (right-click menus) are absent from some parts of the interface when using a touchscreen device. BUG-000121508 BUG-000122918 ProjEng: Add 2 Australian geoid models. BUG-000124230 In ArcGIS Desktop 10.6.x, when exporting a layout to a PDF with the masking removed, a layer is missing in the PDF. BUG-000124230 In ArcGIS Desktop 10.6.x, when exporting a layout to a PDF with the masking removed, a layer is missing in the PDF. BUG-000124396 BUG-000124396 BUG-000125683 BUG-000126036 BUG-000126040 Fields in the Synchronization. Incorrect spatial selection behavior are observed on M-, Z-, or MZ-enabled SDO_Geometry feature classes and spatial views. BUG-000126040 Fields in the Synchronize Mosaic Dataset tool do not populate in an edit session. BUG-000126040 Fields in the Synchronize Mosaic Dataset tool do not populate in an edit session. BUG-000126059 BUG-00012609 BUG-00012609 GeoTIFF images with the WGS_1984 Mercator_2SP projection do not line up in ArcGIS Desktop 10.7.1. The error message, "Error: No Solution Found" is returned in the vehicle routing problem (VRP) in ArcGIS Network Analyst 10.7.1 when 'U-Turn at Junctions' is set to 'Allowed only at Dead Ends'. Add an option to skip checkout versions In the Reconcile Versions geoprocessing tool. BUG-000127410 BUG-000127410 The service area analysis takes a longer time to solve in Oracle 12c when the service-area index on the Network Dataset is enabled. Command is truncated after 269 characters, resulting in "Error 2711" during the custom silent installation of ArcGIS Desktop. BUG-0001279099 The Register with Geodatabase geoprocessing tool loads and operates slowly in ArcMap when registering large spatial tables or views with an enterprise geodatabase. BUG-000130099 ArcMap fails to select all the features of a feature class stored in a f	BUG-000089623	ArcMap crashes when using a Trimble R1 through the GPS toolbar.
return incorrect results for certain geometries. BUG-000106927 In ArcGIS Desktop, the context menus (right-click menus) are absent from some parts of the interface when using a touchscreen device. The Contour (Spatial Analyst) tool generates an empty output when writing to a personal geodatabase (.mdb) in ArcGIS Desktop 10.7. BUG-000122130 BUG-000124230 In ArcGIS Desktop 10.6.x, when exporting a layout to a PDF with the masking removed, a layer is missing in the PDF. BUG-000124230 BUG-000124230 BUG-000124230 BUG-000124230 In ArcGIS Desktop 10.6.x, when exporting a layout to a PDF with the masking removed, a layer is missing in the PDF. BUG-000124230 BUG-00012436 BUG-00012436 BUG-000125683 BUG-000125683 BUG-000126036 Default fields in a mosaic dataset do not synchronize in a derived mosaic dataset. BUG-000126036 BUG-000126040 Fields in the Synchronize Mosaic Dataset tool do not populate in an edit session. BUG-000126040 Fields in the Synchronize Mosaic Dataset tool do not populate in an edit session. BUG-000126036 BUG-000126036 BUG-000126037 The error message, "Error: No Solution Found" is returned in the vehicle routing problem (VRP) in ArcGIS Network Analyst 10.7.1 when 'U-Turn at Junctions' is set to 'Allowed only at Dead Ends'. BUG-000126485 Add an option to skip checkout versions In the Reconcile Versions geoprocessing tool. BUG-000127410 The service area analysis takes a longer time to solve in Oracle 12c when the service-area index on the Network Dataset is enabled. BUG-000127413 Command is truncated after 269 characters, resulting in "Error 2711" during the custom silent installation of ArcGIS Desktop. BUG-000128883 BUG-000128883 BUG-00013009 ArcMap fails to select all the features of a feature class stored in a file geodatabase when using the Advanced ArcMap Settings utility in ArcGIS Desktop 10.8 returns the error message, "ArcMap is not installed. Cannot execute this utility." ArcMap fails to select all the features of a feature class stored in a file geodatabase	BUG-000089023	
the interface when using a touchscreen device. The Contour (Spatial Analyst) tool generates an empty output when writing to a personal geodatabase (.mdb) in ArcGIS Desktop 10.7. BUG-000122918 ProjEng: Add 2 Australian geoid models. In ArcGIS Desktop 10.6.x, when exporting a layout to a PDF with the masking removed, a layer is missing in the PDF. BUG-000124230 In ArcGIS Desktop 10.6.x, when exporting a layout to a PDF with the masking removed, a layer is missing in the PDF. BUG-000124396 One-way, parent-to-child parcel fabric replications do not maintain the Line Accuracy field during synchronization. BUG-000125683 SDO_Geometry feature classes and spatial views. BUG-000126040 Fields in the Synchronize Mosaic Dataset tool do not populate in an edit session. GeoTiFF images with the WGS_1984 Mercator_2SP projection do not line up in ArcGIS Desktop 10.7.1. The error message, "Error: No Solution Found" is returned in the vehicle routing problem (VRP) in ArcGIS Network Analyst 10.7.1 when 'U-Turn at Junctions' is set to 'Allowed only at Dead Ends'. BUG-000126485 Add an option to skip checkout versions In the Reconcile Versions geoprocessing tool. BUG-000127410 The service area analysis takes a longer time to solve in Oracle 12c when the service-area index on the Network Dataset is enabled. Command is truncated after 269 characters, resulting in "Error 2711" during the custom silent installation of ArcGIS Desktop. BUG-000128883 The Register with Geodatabase geoprocessing tool loads and operates slowly in ArcMap when registering large spatial tables or views with an enterprise geodatabase. Launching the Advanced ArcMap Settings utility in ArcGIS Desktop 10.8 returns the error message, "ArcMap is not installed. Cannot execute this utility." BUG-000130009 ProjEng: Make the old and new versions of Belge Lambert 1972 equivalent. Standalone Python scripts against enterprise databases can cause deadlock in some cases. BUG-000130724 The Con method of the Spatial Analyst component RasterConditionalOp fails with	BUG-000094048	·
the interface when using a touchscreen device. The Contour (Spatial Analyst) tool generates an empty output when writing to a personal geodatabase (.mdb) in ArcGiS Desktop 10.7. BUG-000124230 BUG-000124230 BUG-000124230 In ArcGiS Desktop 10.6.x, when exporting a layout to a PDF with the masking removed, a layer is missing in the PDF. One-way, parent-to-child parcel fabric replications do not maintain the Line Accuracy field during synchronization. Incorrect spatial selection behavior are observed on M-, Z-, or MZ-enabled SDO_Geometry feature classes and spatial views. BUG-000126036 BUG-000126036 BUG-000126040 Fields in the Synchronize Mosaic Dataset tool do not populate in an edit session. GeoTiFF images with the WGS_1984 Mercator_2SP projection do not line up in ArcGiS Desktop 10.7.1. The error message, "Error: No Solution Found" is returned in the vehicle routing problem (YRP) in ArcGiS Network Analyst 10.7.1 when 'U-Turn at Junctions' is set to 'Allowed only at Dead Ends'. BUG-000126485 Add an option to skip checkout versions in the Reconcile Versions geoprocessing tool. BUG-000127410 BUG-000127410 The service area analysis takes a longer time to solve in Oracle 12c when the service-area index on the Network Dataset is enabled. Command is truncated after 269 characters, resulting in "Error 2711" during the custom silent installation of ArcGiS Desktop. BUG-000128883 The Register with Geodatabase geoprocessing tool loads and operates slowly in ArcMap when registering large spatial tables or views with an enterprise geodatabase. Launching the Advanced ArcMap Settings utility in ArcGiS Desktop 10.8 returns the error message, "ArcMap is not installed. Cannot execute this utility." BUG-000130009 ArcMap fails to select all the features of a feature class stored in a file geodatabase when using the Selection tools from the Tools toolbar. ArcGIS Enterprise

Analysis Top

BUG-000115546	Output from the Enrich Layer and Create Buffer tools have minor geometry differences.
BUG-000128090	The Join Features analysis tool fails if the join is between a table created in ArcGIS Pro 2.4.2 and a map service with a feature class containing data created by a SQL Developer tool.
BUG-000129510	The Calculate Density analysis tool fails if the input feature layer references an enterprise geodatabase or the data is copied to the server.
ENH-000128265	Provide an analysis tool, Extract Data, which supports the ability to package layers into datasets.

ArcGIS Data Store

<u>Top</u>

BUG-000121017	When a domain name is added in the Compatibility View Settings in Internet Explorer, accessing the ArcGIS Data Store Configuration page returns the error: "Unsupported Browser."
BUG-000127649	Unable to configure a replicated deployment using the webgisdr utility if the deployment includes Location Tracking or ArcGIS GeoEvent services.
BUG-000129891	Upgrade of tile cache data store fails if port 5986 is in use by another process.
ENH-000131955	Provide an option that allows the ArcGIS Data Store administrator to deploy the tile cache data store in primary/standby or cluster mode.
ENH-000131956	Update changestaginglocation utility to honor the tile cache data store.
ENH-000131963	Provide an option to change spatiotemporal datastore to read write mode.

ArcGIS Web AppBuilder

BUG-000116089	The Web AppBuilder for ArcGIS Query widget filter expression is configured to only
	show 'Values filtered by previous expressions' lists all unique values instead of a
	filtered set when the previous expression is configured from the Group Filter widget.
BUG-000116557	The selected features do not honor the Attribute Table widget filter in Portal for ArcGIS
BOG-000110337	10.6.1 Web AppBuilder.
DUC 000110700	All layers in Portal for ArcGIS Web AppBuilder for ArcGIS are re-enabled after running
BUG-000119790	the 'Create layer' within the Select widget.
BUG-000120828	Invalid error message is returned when inputting a CSV with incorrect fields.
BUG-000124704	Scrolling down using the scroll bar in the Google Chrome browser for the search
	widget in Web AppBuilder for ArcGIS does not work.
BUG-000126009	When using the Attribute Table widget in the Web AppBuilder for ArcGIS to select
	many attributes in the table, only 150 attributes are selectable.

BUG-000127150	Unable to run GP service to buffer points in WAB web app on Portal when maxPostSize value is exceeded by entity content length.
BUG-000128020	Unable to use the ArcGIS Online World Geocoding Service in the Data Aggregation (Beta) widget unless the geocoder is shared with everyone.
BUG-000128438	Unable to save the query widget results from Web AppBuilder for ArcGIS when Portal for ArcGIS is configured with Public Key Infrastructure (PKI) or Integrated Windows Authentication (IWA).
BUG-000128486	After sharing a map from ArcGIS Pro with two layers as referenced and editable, users are unable to open the Smart Editor widget from the pop-up because the Options button is disabled.
BUG-000130067	An infinite number of requests are generated when viewing the attribute of a service with around one million features in ArcGIS Web AppBuilder.
ENH-000122164	Please provide a uniform Format when Exporting to CSV between the Query Widget and the attribute table widget when the data contains a Coded Domain Value.

Disaster Recovery

<u>Top</u>

	Completing a webgisdr Disaster Recovery or Migration to a secondary enterprise and
BUG-000127848	utilizing different ArcGIS Server directory or config-store folder structures fails because
	the logs folder is not able to find the configured path.

Distributed Collaboration

	When sharing a web map and the included feature layers using Distributed
BUG-000124775	Collaboration, layers are periodically shared as references instead of as copies.
DUIC 000426264	Sharing a hosted feature service as a copy using Distributed Collaboration fails when
BUG-000126391	the service has two or more related tables.
DUC 000127427	When the list of collaborations spans multiple pages it is only possible to access the
BUG-000127427	first page of results.
	A distributed collaboration participant is unable to import items created in ArcGIS
BUG-000128084	Insights, such as workbooks, pages, and models, using ArcGIS Online or ArcGIS
	Enterprise 10.8.
	In Distributed Collaboration, web mapping applications shared from ArcGIS Enterprise
BUG-000128908	Portal to ArcGIS Online are received but are not shared to the group joined to the
	collaboration workspace.
	In Distributed Collaboration, synchronization of feature layers, as copies, fails when the
BUG-000130100	receiving collaboration participant's hosting server's content directories are located on
	a file share.
BUG-000130268	In Distributed Collaboration, a host is unable to import an invitation response file if the
	guest cannot be reached.
BUG-000132510	When configuring a collaboration workspace provide the ability to set the option to
BUG-000132310	turn off copying feature services as references if share as copies fails.

BUG-000132511	Expose the ability to enter viewer user type credentials for 'by-ref' services on a
	collaboration workspace.
ENH-000127814	When a group is joined to a collaboration workspace delete protection will be enabled
	by default.
ENH-000132513	Provide the ability to change or update the web authentication information used to
	communicate with a collaboration participant.

Documentation

<u>Top</u>

BUG-000115636	Server-based Named User Login documentation still refers to expiration of the refresh token to -1 for lasting the token forever.
BUG-000124601	Specify the type of services that have the 'queryTopFeatures' functionality available.
	The documentation of the Enterprise Builder must clarify that configuring an
BUG-000126269	Enterprise DNS alias in an environment configured by the Enterprise Builder is not
	supported.
	Update ArcGIS Portal REST API documentation for the Get Users Within Enterprise
ENH-000104728	Group operation with a note regarding all users from large Enterprise Groups not be
	displayed in the search results.
ENH-000117092	Add a statement in the REST API document that states the limitation of the
LIVIT-000117092	updateDefinition operation.
ENH-000125469	Provide more-specific instructions on how to configure LDAP and web tier
ENT 000125405	authentication with ArcGIS Web Adaptor.
ENH-000127440	Update Windows System Requirements to note that we require Desktop Experience.
ENH-000127776	ArcGIS Server documentation does not prompt users to update the managed datastore
EINH-000127776	license when updating the server license.
ENH-000128454	Update the "Ports used by Portal for ArcGIS" documentation for version 10.7.x to
	include port 7220.
ENH-000129247	Please provide clearer documentation on the disk space requirements when upgrading
LINIT-000123247	ArcGIS Data Store.

Enterprise Geodatabase Top

	Displaying a feature class in ArcMap and opening the properties in Catalog, either
BUG-000117909	ArcCatalog or the Catalog pane of a different ArcMap session, creates an open
	transaction in SQL Server
	ArcGIS double fields with precision 10 and scale 0 in an Oracle geodatabase are altered
	automatically to long integer after previewing it in ArcGIS Desktop 10.6.1, ArcGIS Pro
BUG-000118138	2.2 or later clients. An error message, "[ORA-01455: converting columns overflows
	integer datatype]" is returned if the fields contain numbers larger than the maximum
	for a long integer (2,147,483,647).

BUG-000118516	Database connection fails for a user who has the 'select' privilege on a faulty or missing view which is owned by another user.
BUG-000125200	ST_INTERSECTION() and ST_AGGR_INTERSECTION() return unexpected results for specific geometries.
BUG-000125400	The Register with Geodatabase tool assigns an incorrect spatial reference identifier (SRID) for a spatial view when multiple entries for the same auth_srid value exist in the spatial_references table.
BUG-000126179	SQL functions using the ST_Geometry type fail with the "ORA-06520: PL/SQL: Error loading external library" error message on Oracle Solaris 11.3 OS - Oracle 18c Database - 10.7.1 Enterprise Geodatabase environments.
BUG-000126821	Upgrading an SDE schema geodatabase to version 10.6 or later as the SDE user fails with a -37 error if the geodatabase contains feature classes with non-versioned archiving
BUG-000127029	Reconcile/post using a geoprocessing tool fails to update an archive class of a PostGIS table.
BUG-000128381	A one-way replica synchronization fails, returning the error message, "Synchronize Replica Failed [<schema>.<featureclass>] Table not registered [PEA.GDB TEMP USER IDS]."</featureclass></schema>
BUG-000128610	The ST_INTERSECTION() function fails and returns the following error messages for specific geometries, "ORA-20018: Unexpected Error - Failed to get the intersection of two shapes" and "ORA-20812: Geometry has too few points."
BUG-000129298	Copying a feature class into an SQLite database with SpatiaLite geometry returns the error: "Failed to paste <feature class="">. DBMS table not found[no such table: main.main.<featureclass>."</featureclass></feature>
BUG-000129828	Enabling an Azure SQL Database with Hebrew_CI_AS Collation as an enterprise geodatabase in ArcGIS Pro and ArcMap fails with ERROR: Cannot resolve the collation conflict between "Hebrew_CI_AS" and "SQL_Latin1_General_CP1_CI_AS" in the equal to operation.
BUG-000130502	Error 000852 Cannot add field <field name=""> to <feature class=""> when attempting to add a non-nullable Date field to a feature class stored in a DB2 geodatabase</feature></field>

Feature Services

BUG-000127663	Exporting a hosted feature layer containing large attachments fails if the size of the
	exported file geodatabase exceeds 2 GB.
BUG-000127681	ArcGIS Server fails to return the fields with the esriFieldTypeSingle type for a service
BUG-000127681	when the GeoJSON component is queried at the REST endpoint.
BUG-000127820	Executing branch versioned queries using fully qualified table names (that include the
	database name) can cause the SQL Server optimizer to choose a poor performing
	execution plan

BUG-000129831	Enabling Editor Tracking on a relationship class does not populate the tracking fields
	when users edit in a named version of a branch-versioned feature service.

GeoAnalytics

<u>Top</u>

	GeoAnalytics Server does not support connections to Hadoop with Kerberos
BUG-000126173	authentication when Hadoop's hadoop.rpc.protection property is set to 'privacy' or
	'integrity'.

Top

BUG-000111452	Web tools are not populating the output geometry definition.
BUG-000118125	The result map service of a geoprocessing service does not have Generate KML listed
	as a supported operation.
BUG-000125184	Geoprocessing tool string inputs are being reformatted by ArcGIS Server when
	published as a new Geoprocessing Service.
BUG-000125688	When consuming a web tool shared with everyone using a map or image service
	shared with everyone as input, an error message shows the operation does not have
	permission.
BUG-000126870	The output map image layer from an web tool does not retain the output layer
	symbology property.
BUG-000130013	The Multi Ring Buffer geoprocessing service requires an Administrator update privilege
	in order to create a hosted feature service output in the data store.

GIS Server

<u>Top</u>

BUG-000132438	Portal for ArcGIS users with a single administrator privilege (such as manage licenses) have full control over the ArcGIS Server Administrative directory.
BUG-000132441	When registering a new ArcGIS Server directory, there is no validation for the physical path entered.
ENH-000126060	Add validation to the file share raster store registration process.
ENH-000132439	ArcGIS Server is not logging enough information for upgrade process.
ENH-000132442	Allow CSV and GeoJSON files to be uploaded for Feature Services.
NIM100417	Import/Export: Date Format should be in a sortable format such as YYYY-MM-DD.

High Availability

BUG-000103763	Updating the database account does not work for a highly available portal deployment.
BUG-000113339	The export site operation returns the error message, "Export operation failed. null"
	when using ArcGIS Server on Azure or Amazon Web Services.

BUG-000125031	Highly available ArcGIS Enterprise WebGIS backup fails to import to a single Enterprise
	site when there are two Data Stores in the highly available site.
BUG-000126198	The primary portal and the standby portal are no longer accessible after the
	pg_hba.conf entries are commented out.

Home Application Top

BUG-000118488	The 'Show Related Records' option does not honor the pop-up configuration on related tables in the Map Viewer.
BUG-000121234	In ArcGIS Pro, pop-ups configured as custom text for group layers do not return attribute information when viewed in Portal for ArcGIS Map Viewer.
BUG-000123049	When signed in as a member assigned a custom role with all administrative privileges enabled, the toggle button on the group details page, labelled 'Add members of the organization immediately, without requiring confirmation' option is disabled.
BUG-000125159	Exporting a published survey to Excel from the ArcGIS Survey123 website returns the error message: "Failed to export."
BUG-000125858	Unable to customize foot links to include a Contact Us link.
BUG-000126239	In the ArcGIS Online organizational account and Enterprise portal home page organization description, CSS/HTML formatting changes unexpectedly after making other changes to the home page settings.
BUG-000126731	When using the FeatureSetByRelationshipName function within a custom attribute expression on a related table, the data table displays the expression result as "Data Error".
BUG-000127152	An error is returned when accessing a footer link.
BUG-000127659	CSV files exported from hosted feature layers in ArcGIS Enterprise Portal are encoded in UTF-8 without byte order mark (BOM).
BUG-000128140	Error messages are not displayed in the correct language after a member updates their preferred language in their profile.
BUG-000128214	Unable to add and configure the Trusted servers and Allow portal access list in the ArcGIS Enterprise portal.
BUG-000129529	Members last login time not updated when accessing ArcGIS Enterprise Portal via the home page.
BUG-000131277	When a group is specified in the Gallery settings, the Date Modified filter on the Gallery page will not function as expected.
BUG-000132503	Increase the size limit for files uploaded to the ArcGIS Enterprise portal from 200 GB to 500 GB.
ENH-000115757	Add support for Swiss Number format.
ENH-000121668	Allow Hosted layers to maintain the notes in the Item Credits (Attribution) section whenever the layer item is copied.
ENH-000125436	In the Map Viewer, provide the capability to create dynamic layer filters, on temporal data, which includes values within previous years, months, days, hours, minutes and seconds.
ENH-000125606	Provide the ability to create a custom role with the privilege to manage versions.

ENH-000132499	When performing Feature Analysis provide the ability to geocode locations from table.
ENH-000132500	Provide the ability to configure what default city and street names are returned by a locator's view.
ENH-000132501	Provide the ability for administrators to configure a custom access notice to be displayed when all users access the organization.
ENH-000132502	Support assigning members to groups in bulk on the Organization Members tab.
ENH-000132505	Redesign the User profile page to provide additional user information and an updated look and feel.
ENH-000132506	Allow embedding videos in Item and Group descriptions.
ENH-000132507	Provide ability to allow or disallow edits to feature geometries on hosted feature layers.
ENH-000132509	Provide support for a version management privilege which allows members to manage branch version locks and to view, alter, and delete branch versioned data accessed through ArcGIS Server feature services.
ENH-000132512	Allow administrators to set a default user type and role for new members.
ENH-000132514	Provide the ability to set the option to turn off copying feature services as reference if share as copy fails.
ENH-000132515	Provide the ability for administrators to enable the use of enterprise.arcgis.com as the help source for the Enterprise portal.
ENH-000132516	Redesign the Organization Settings page to provide automatic saving of individual settings and an updated look and feel.
ENH-000132517	Create single and multipage web applications with interactive widgets using ArcGIS Experience builds.
ENH-000132518	Author web based applications to share maps in the context of narrative text and other multimedia content using ArcGIS Story Maps.
ENH-000132519	Support configuring an Information Banner to display on sites and pages created with ArcGIS Enterprise Sites.

Image Services

<u>Top</u>

BUG-000128423	The Add Rasters To Mosaic Dataset tool fails when using a table as the raster type in an
	ArcGIS Server Linux environment.

Installation and Upgrades $\underline{\text{Top}}$

BUG-000127231	If you change the region of a machine hosting portal after it is configured, you are unable to upgrade the portal.
BUG-000127325	Item view count for every service in an ArcGIS Enterprise environment returns to 0 after upgrading ArcGIS Enterprise to 10.7.1.
BUG-000129891	Upgrade of tile cache data store fails if port 5986 is in use by another process.

Linux

<u>Top</u>

BUG-000118867	'Install All Patches' in the ArcGIS Enterprise Patch Notification tool fails to install all updates and closes prematurely.
BUG-000125335	Blocking the outgoing connections to arcgis.com in a perimeter network will cause ArcGIS Server (Linux) site creation to take a long time and the PublishingToolsEx service will not start properly afterward.
BUG-000127526	Export Web Map task fails for ArcGIS Online basemaps and any service accessed through HTTPS.
BUG-000132431	On Linux deployments, partial updates on scene services do not cleanup the edits properly.
BUG-000132432	After installation using the ArcGIS Enterprise Builder, the cofigurebasedeployment tool sometimes hangs at setting the hosted server.

Manager

<u>Top</u>

BUG-000083424	After configuring ArcGIS Server to use LDAP over ssl, the user and group store URLs read 'LDAP' instead of 'LDAPS' in Manager.
ENH-000127481	Provide a notification in Manager when an ArcGIS Server role or extension license has recently expired or is expiring within 30 days.
ENH-000132444	Support validating registered Raster Stores in Manager.
ENH-000132445	Allow custom SOEs and SOIs that support shared instances to be enabled on services in Manager.
ENH-000132446	Add option to enable resampling on cached map and image services in Manager.
ENH-000132447	Unable to share services to shared update groups via Manager.

Network Analysis

<u>Top</u>

BUG-000120596	The Closest Facility Network Analysis service does not return geometry in the JavaScript object notation (JSON) response if the incident and facility are set in the same location.
ENH-000132508	Allow configuring Traffic Data utility service as part of the Directions and Routing utility services.

Notebook Server

BUG-000132000	ArcGIS Notebook Server is unable to load map widget in a disconnected environment deployed in a preconfigured docker container.
BUG-000132450	Filtering of notebook items by sub categories is not working in Esri Sample Notebooks group.

	Be and a few and a significant character of the control of the con
BUG-000132453	Do not auto create untitled notebook items when a notebook is opened using
	Notebook link on the top ribbon of the organization website.
BUG-000132454	Password policy requirements shown in the ArcGIS Notebook Server configuration
	wizard do not match the password policy enforced by the administrative API.
BUG-000132456	When a new site is created, the domain name of the notebook server machine is
	incorrectly set to mshome.net.
DLIC 000122462	Always show user content on the top when adding content from My Organization in
BUG-000132463	the notebook editor.
BUG-000132474	Some strings are hard coded to English in ArcGIS Notebook Server Manager.
BUG-000132475	In notebook editor, submenu options within the analysis tools do not support
BUG-000132475	navigation using the TAB or Arrow keys.
ENH-000123526	Add more exceptions to the 'is_url_reachable' function in 'Content Management:
ENH-000123526	Check a web map for broken URLs' sample notebook.
ENH-000130137	Support the ability to disable the REST Services Directory in ArcGIS Notebook Server.
ENH-000132451	Add support for scheduling of notebook tasks.
ENH-000132455	Add support to restore to the default notebook template.
ENH-000132458	Add support in ArcGIS Notebook Server administrative API to return most recent
ENT-000132436	statistics.
ENH-000132459	Add support for Describe Dataset GeoAnalytics tool in the notebook editor.
ENH-000132460	Add support for the following Raster Analytics tools in the notebook editor: Generate
	Trend Raster, Predict Using Trend Raster, Find Argument Statistics, Sample, and
	Classify Objects using Deep Learning.
ENH-000132461	Add support for Geographically Weighted Regression GeoAnalytics tool in the
	notebook editor.
ENH-000132473	Provide option to choose a notebook runtime when opening a notebook using the
	Notebook link on the top ribbon of the organization website.

OGC Services

BUG-000107869	The Set Extent option does not work in Portal for ArcGIS 10.5 after adding a Web Map
	Tile Service (WMTS) layer.
BUG-000116815	Allow the properties window for a time-enabled Web Map Service (WMS) layer to
	have an option to enable the time slider in ArcGIS Pro.
BUG-000122954	Unable to load a Web Map Service (WMS), in the Map Viewer, if the content type in
	the response is application/vnd.ogc.wms_xml.
BUG-000124680	ArcGIS Server fails to return a response from the Web Feature Server (WFS) service if
	there are a large number of features in the WFS.
BUG-000127701	A Web Map Service (WMS) service does not honor layer visibility in any client despite
	all the layers being turned on or off in the Contents pane prior to publishing.

Scene Viewer

<u>Top</u>

BUG-000123856	The same tile layer has a reduced resolution when displayed on custom elevation
	surfaces.
BUG-000126322	Scene Viewer shows a hole around the North Pole when a feature covers the region.
BUG-000126332	IWA authenticated users are signed out of Portal when accessing Scene Viewer with
	disabled anonymous access.
BUG-000127511	Tilting a local scene in Scene Viewer displays lower resolution basemap tiles.
ENH-000127767	Add support to drape 2D data over an Integrated Mesh layer.
ENH-000132504	Add support for updating a scene layer's contents by replacing it with another scene
	layer published from a scene layer package (SLPK).

Security Top

BUG-000098183	Cache control changes are needed to prevent offline caching for sensitive pages.
BUG-000121049	If an ArcGIS group that is linked to a group in the SAML IDP is owned by a SAML user
	who is not listed as a member of the group in the SAML assertion response, that user's
	group membership fails to update.
BUG-000121459	ArcGIS Server accepts blank values for the SSL Protocols and SSL Cipher Suites
	parameters.
BUG-000127113	Unable to connect to the identity store using Asp.net in ArcGIS Server 10.7. or later
	after restarting the ArcGIS Server Windows service.
ENH-000116221	In Portal for ArcGIS custom roles, provide the ability to configure how Portal and
	ArcGIS Server logs can be viewed.

Web Adaptor

ENH-000132433	Allow the Web Adaptor to support a multiple machine Mission Server deployment.
ENH-000132434	ArcGIS Web Adaptor (IIS) should support CDNs (content distribution networks).
ENH-000132435	Provide an option to not reindex when registering the ArcGIS Web Adaptor with Portal
	for ArcGIS.
ENH-000132436	Add support for ArcGIS Workflow Manager through the ArcGIS Web Adaptor.
ENH-000132437	Add ability to provide a JSON formatted failure response through the ArcGIS Web
	Adaptor.

ArcGIS Data Reviewer

<u>Top</u>

BUG-000126374	Browse Features: Data Reviewer checks run on an LGIM-enabled parcel fabric does not honor fabric layer definition queries.
BUG-000127726	Data reviewer batch composite check does not run as designed. While the same test
	ran as a single test returns the right results

GeoEvent Server

BUG-000125647	Stream services need to include a field named globalid (with type esriFieldTypeGlobalID) when published.
BUG-000120258	Feature record paging strategy contains an off-by-one error in ArcGIS GeoEvent Server 10.6.x and 10.7.x releases when polling an ArcGIS Online sample server.
BUG-000129617	Remove Client Ping Interval and Cluster Message Life Span properties from Global Settings documentation.
