ArcGIS Enterprise 11.0 Issues Addressed List

ArcGIS Enterprise 11.0 Issues Addressed List

ArcGIS Data Store

BUG-000133915	The describedatastore command should display the backup location with backward slashes for Windows operating systems.
BUG-000137482	Backing up an unhealthy (RED status) spatiotemporal data store using the backupdatastore utility returns a successful response when the snapshot status within Elasticsearch is 'Failed'.
BUG-000139852	Improve error message when updatingssl certificate with the same alias twice.
BUG-000143824	Improve robustness of tile cache data store backup process.
BUG-000145346	Update log4j to address security vulnerabilities.
BUG-000146180	The Data Retention Option in a spatiotemporal data source set via ArcGIS GeoEvent Server is not honored appropriately.
BUG-000146199	Improve the reliability of the configuration of a large standby relational data store.
BUG-000147035	Unable to publish to the tile cache data store in an IPv6 environment.
BUG-000147103	Backup for the tile cache data store fails when configured in an IPv6 environment.
BUG-000148139	The relational ArcGIS Data Store should wait until the database is accessible during a restore before allowing connections from the registered ArcGIS Server site.
BUG-000150153	SSL is not retained when restoring a backup from a non-SSL configured ArcGIS Data Store configured with PITR to an SSL configured ArcGIS Data Store.

ArcGIS Enterprise Portal

Administration

BUG-000106298	The /portaladmin/security/sslCertificates/importRootOrIntermediate endpoint does not return a JSON response when f=json is specified in a POST request.
BUG-000142469	Importing content into a group fails when the group being imported is set up with Shared Update enabled.
BUG-000142535	The /sharing/rest/content/users/{userid}/jobs/{jobid} is not accessible to non administrators.
BUG-000145347	Update log4j components to version 2.17.1 to address security vulnerabilities.
ENH-000150433	Provide the ability to configure advanced portal options through the ArcGIS Portal Directory (Sharing API).
ENH-000150434	Scan your portal for operational health issues using the included Python script.

ArcGIS Enterprise 11.0 Issues Addressed List

Analysis

BUG-000117201	GET request occurs for www.static.arcgis.com/images/symbols/basic/greenstickpin.png in a disconnected environment and inaccessible on a machine with internet access.
BUG-000135684	An incomplete output is returned when using the overlay analysis with input and overlay layers from the outputs of a union.
BUG-000141235	The Create Drive-Time Areas tool fails when a public routing utility service from another portal is implemented.
BUG-000143742	Using the ArcGIS Living Atlas of the World layers with a different CRS than the basemap as input for an overlay analysis fails when using the option, 'Use current map extent'.
BUG-000144523	Performing the Find Nearest analysis in ArcGIS Online displays different results when the language setting is Korean and the region setting is Korea.
BUG-000147974	If a user's profile language setting is Ukrainian, the Join Features tool and the Choose Best Facilities tool become unresponsive in Map Viewer Classic.
BUG-000150361	Dissolve boundaries is not returning the correct count for multipart inputs dissolved to singlepart.
ENH-000134543	Interpolate Points tool documentation should have an explanation of why the output generated has fewer classes than expected.
ENH-000150360	Support setting the spatial reference of the output of Generate Tessellations.
ENH-000150362	Support setting the spatial reference of the output of Dissolve Boundaries.

ArcGIS Dashboards

BUG-000139152	In ArcGIS Dashboards, after filtering the features in a map based on a category, the pop-up for filtering out the overlapped features are still displayed.
BUG-000141264	The distinct function of the Indicator widget in ArcGIS Dashboards displays no data when configured with an ArcGIS Enterprise feature layer.
BUG-000145792	When creating a dashboard in Portal for ArcGIS 10.9.1, the dashboard URL adds two dots after the web adaptor's name.
BUG-000146349	ArcGIS Dashboards in Portal for ArcGIS 10.9.1 returns a "Cannot Access Data" error when displaying data with timestamps in a chart.
BUG-000146775	Unable to filter a point feature layer that is symbolized as a heatmap in ArcGIS Dashboards in Portal for ArcGIS.
BUG-000147531	The indicator widget in ArcGIS Dashboards does not reflect the latest updated value automatically for referenced feature layers with a specified refresh interval.
BUG-000147750	In ArcGIS Dashboards in Portal for ArcGIS, after filtering the features in a map based on a category, the pop-up for filtering out the overlapping features still displays.
BUG-000148804	In ArcGIS Dashboards, the Serial Chart widget with Grouped values (categorized by date) does not calculate the average statistics when multiple items are selected.
ENH-000111213	In ArcGIS Dashboards, allow options for a Summary table to be displayed, something allowing multiple indicators to be displayed in a single element.

ArcGIS Enterprise 11.0 Issues Addressed List

ENH-000128717	Add the capability to ArcGIS Dashboards to be able to trigger action from charts on all map layers (not just the chart's data source).

ArcGIS Experience Builder

BUG-000135843	Inability to add secured map services from ArcGIS Server to ArcGIS Experience Builder.
BUG-000136230	ArcGIS Experience Builder returns the error, "a.getCurrentQueryParams is not a function" when a group layer containing a feature layer and a tile service is added.
BUG-000136286	A duplicate page redirects to the original page when selecting a list item in the Place Explorer theme in ArcGIS Experience Builder.
BUG-000136671	The '&' symbol is not displayed correctly in the Survey widget in ArcGIS Experience Builder.
BUG-000137885	In ArcGIS Experience Builder, the Zoom trigger of the List widget does not work as expected for the Hong Kong 1980 Grid projection system.
BUG-000137888	When any basemap other than a basemap with the WGS84 projection is used in a web experience app, the map does not zoom or pan when an item is selected from the List widget.
BUG-000138635	Unable to configure fields in the Query widget in ArcGIS Experience Builder.
BUG-000139127	The Feature Info widget in ArcGIS Experience Builder fails to recognize the custom pop-up when configured with the Selected Features option.
BUG-000139621	Using the search tool within the List widget in ArcGIS Experience Builder does not work when filters are applied to the original map.
BUG-000139805	The Zoom To action in the List widget on web scenes does not work properly in the web experience if the spatial reference is not WGS84.
BUG-000139948	The embedded Zone Lookup app in ArcGIS Experience Builder concatenates the field records when making changes in the data attribute.
BUG-000140176	In ArcGIS Experience Builder, the Zoom trigger of the List widget does not work as expected for the Ain el Abd 1970 UTM Zone 39N projection system.
BUG-000140721	In ArcGIS Experience Builder, the Button widget does not function within the window.
BUG-000140738	In ArcGIS Experience Builder, exporting data with line breaks results in inconsistent CSV formatting.
BUG-000140745	Unable to add GeoJSON files generated from ArcGIS Experience Builder to a web map or hosted as feature layers.
BUG-000140816	In ArcGIS Experience Builder with multiple filter widgets, selecting more than one filter value in a particular filter returns inconsistent results.
BUG-000140846	Table widget does not follow the sort settings in the corresponding data view panel.
BUG-000141351	Files for 'arcgis-charts' are missing when downloading ArcGIS Experience Builder apps with charts.
BUG-000141646	Pop-ups in ArcGIS Experience Builder (map element) get stuck after selecting the fifth pop-up on iOS devices.
BUG-000141684	In the Table widget in ArcGIS Experience Builder, sheets created from the layer views do not display the data when loading the sheet for the first time.
BUG-000141748	There is an issue configuring the SQL expression for a filter widget in ArcGIS Experience Builder using the attribute records with the apostrophe symbol.

ArcGIS Enterprise 11.0 Issues Addressed List

BUG-000142080	Sorting a feature for the Table widget does not sort fields right after exiting from the configuration/settings window.
BUG-000142135	ArcGIS Experience Builder Developer Edition prompts for two login challenges on separate browser tabs or windows even after authenticating through Open Authorization (OAuth) at least once for the same app.
BUG-000142301	Using tile layers within a group in a web map in ArcGIS Experience Builder causes the Bookmark widget to freeze and returns the following error message, "s.getCurrentQueryParams is not a function".
BUG-000142381	ArcGIS Experience Builder does not return the search results for records with an apostrophe.
BUG-000142453	Nested drop-down menus in ArcGIS Experience Builder developer edition widgets do not close correctly.
BUG-000142496	In the ArcGIS Experience Builder documentation, the jimu-ui section is not accessible and pages show up within a search but when clicked lead to a 404 error.
BUG-000142819	In ArcGIS Experience Builder, the Map widget does not zoom to point features when using a custom locator.
BUG-000143061	The documentation for the developer edition of ArcGIS Experience Builder describing how to deploy an experience is ambiguous about where the root directory of the experience app is located.
BUG-000143106	ArcGIS Experience Builder no longer supports Security Assertion Markup Language (SAML) authentication for secure layers.
BUG-000143134	Unable to load ArcGIS Experience Builder web apps with the error message, "Cannot set properties of undefined (setting 'useDataSources')" returned.
BUG-000143220	Unable to open a layer in ArcGIS Experience Builder developer edition configured with SAML from another SAML authenticated ArcGIS Enterprise site within the network.
BUG-000143224	In ArcGIS Experience Builder, the Table widget displays incorrect records when selecting records.
BUG-000143251	The Query widget in ArcGIS Experience Builder does not honor custom pop-up expressions from a web map.
BUG-000143268	In ArcGIS Experience Builder, the Chart widget does not display the value range.
BUG-000143658	Modifying the colors of the tools in ArcGIS Experience Builder after changing the primary color of a project returns the primary color selection to the default.
BUG-000144012	Feature attribute pop-ups from an ArcGIS Experience Builder application fail to open on iOS 15 or macOS Monterey when a tile layer is present in the web map.
BUG-000144250	When edits are made to the minimum or maximum value axis and color in the Chart widget, the changes are not applied in the preview or publish view unless Category Axis Label is selected.
BUG-000144424	In ArcGIS Experience Builder, the Map widget does not abide by the filters applied over web scene layers.
BUG-000145189	The Map Layers widget does not display symbols in ArcGIS Experience Builder.
BUG-000145339	In ArcGIS Experience Builder, some fields do not display in the Table widget when the widget includes multiple sheets.
BUG-000145367	Unable to view pop-ups in ArcGIS Experience Builder containing three-point feature classes on an iPhone.
BUG-000145395	In ArcGIS Experience Builder, the tooltip does not display for the Arrange and Align tools in the widgets.

ArcGIS Enterprise 11.0 Issues Addressed List

BUG-000145929	The Dynamic Text widget from the ArcGIS Online Experience Builder web app does not automatically update the feature count text which is set with 'Connect to data'.
BUG-000146363	In ArcGIS Experience Builder, the text of the header of the Edit widget is placed outside of the header when the text of the header is too long for the size of the widget.
BUG-000146633	Records from a data view are not initially queried in the Table widget.
BUG-000147180	The Filter widget in ArcGIS Experience Builder does not show the complete list of unique values (countries) when the web map is symbolized using unique values from another field.
BUG-000147869	The Table widget does not populate records when the List widget references the same feature layer and is configured with sorts.
BUG-000147914	In ArcGIS Experience Builder, when the Edit widget is configured to update 'Geometry and attribute', the error message, "Cannot read properties of undefined (reading 'destroy')" is displayed.
BUG-000147960	The ArcGIS Experience Builder Edit widget does not display all fields selected to be displayed.
BUG-000149329	The 'Add connection' survey question drop-down list in the ArcGIS Experience Builder Survey widget in Portal for ArcGIS 10.9.1 does not list the survey questions that belong to a group.
ENH-000137534	Provide the ability to add text and customize the arrow in the Sidebar Widget with text.
ENH-000137574	Enable icon selection UI for ArcGIS Experience Builder folders.
ENH-000139550	Allow 'features' from Interactive Draw Mode in the spatial query to stay on the map until manually cleared.
ENH-000140235	Allow images uploaded to ArcGIS Experience Builder to be deleted.
ENH-000142373	ArcGIS Experience Builder documentation does not specifically state that it supports Shared Update group capabilities.
ENH-000142505	Add a trigger to the Filter widget in ArcGIS Experience Builder (developer edition) so other widgets can be made aware of changes to filters.
ENH-000142949	In web experience, the Enable Buffer option in the Query widget is very confusing
ENH-000144475	Provide the ability to add an action to adjust the zoom level of the web map for Search widget in ArcGIS Experience Builder.
ENH-000144606	Apply a thousands place separator in dynamic queries when applicable in ArcGIS Experience Builder.
ENH-000144618	Allow for decimal place rounding with the use of a Dynamic Content Calculation in ArcGIS Experience Builder.
ENH-000147332	Include the Edit Widget in ArcGIS Experience Builder in ArcGIS Enterprise.

ArcGIS Indoors

BUG-000150332	Unable to select a level for some buildings using the floor filter in some cases.

ArcGIS StoryMaps

ENH-000150435	Support the ability to export and import ArcGIS Story Maps and Themes into groups.

ArcGIS Enterprise 11.0 Issues Addressed List

ArcGIS Web AppBuilder

BUG-000115176	The Print widget In ArcGIS Web AppBuilder does not print features filtered by date.
BUG-000122219	Printing the proximity analysis reports using the Incident widget in Web AppBuilder does not print the numbers indicated by the incident interactions.
BUG-000123859	In ArcGIS Web AppBuilder, the Group Filter widget filters off UTC time and not local time zones.
BUG-000136224	In ArcGIS Web AppBuilder developer edition, clicking the Escape button to cancel the action after using the Draw and Select widgets, the following message, "Skip to map." is returned.
BUG-000137375	In ArcGIS Enterprise, the German special character 'ß' is not honored when used in the ArcGIS Web AppBuilder Query widget.
BUG-000139493	In Portal for ArcGIS, unable to select a polyline or polygon layer under the Miscellaneous tab in the Distance and Direction widget in ArcGIS Web AppBuilder.
BUG-000140027	The Select widget opens up the Smart Editor widget in an ArcGIS Web AppBuilder if the Smart Editor widget is used on the selected feature in the same session, and the 'Enable Geometry Edits by Default' option in the Smart Editor widget is enabled.
BUG-000140144	After opening and closing the Smart Editor widget in a web app created in ArcGIS Web AppBuilder, clearing a selection for a single layer clears the selection in all layers in the Select widget.
BUG-000140748	In ArcGIS Web AppBuilder, the Analysis widget containing the Find Nearest analysis tool returns an error that the tool is not configured.
BUG-000140888	The ArcGIS Web AppBuilder Visibility widget does not create a report when using the NZ Imagery Basemap.
BUG-000141240	ArcGIS Web AppBuilder in ArcGIS Enterprise 10.9 is blocking hosted custom 3D widgets.
BUG-000142151	A browser page is unresponsive when exporting to CSV via the Attribute widget in ArcGIS Web AppBuilder.
BUG-000142759	The Emergency Response Guide widget produces a Downwind Protection Action Zone polygon for materials that must not have one.
BUG-000143116	Unable to edit features by clicking directly on the map when using the Smart Editor widget with the 'Update Only' configuration.
BUG-000143191	Sometimes, the Near Me widget turns on all layers in the map even though they are not part of the location results layers.
BUG-000143567	With German language settings, exporting a CSV file from the feature layer by using the ArcGIS Web AppBuilder attribute table widget results in a point for the decimal delimiter.
ENH-000116781	In Web AppBuilder Infographic widget, provide configuration option for setting a range for values on the Y axis of charts.
ENH-000139722	Provide the ability to display a message regarding incorrect misclose distance value while editing a parcel using the Parcel Drafter Widget.
ENH-000140577	Add ability to define default values for the Visibility Widget in ArcGIS Web AppBuilder.
ENH-000142757	Allow units to be changed within the Emergency Response Guide widget.
ENH-000143900	Provide option in ArcGIS Web AppBuilder Near Me Widget to return results for all configured search layers.

ArcGIS Enterprise 11.0 Issues Addressed List

Distributed Collaboration

BUG-000142831	When configuring a distributed collaboration workspace service proxy, if the viewer credentials contain a colon, layers shared across the collaboration fail to leverage service proxy functionality.
BUG-000143618	The thumbnail is pixelated for a Living Atlas item copied from ArcGIS Enterprise to ArcGIS Online via distributed collaboration.
BUG-000143635	The authoritative or deprecated status gets erased when syncing a workspace in a distributed collaboration between ArcGIS Online and Portal for ArcGIS.
BUG-000145039	Registered map services display a blank white thumbnail when shared via a distributed collaboration in ArcGIS Online.
BUG-000145387	When filtering items on the Content Page, distributed collaborations with long names are not wrapped and overlapped with the list items.
BUG-000146790	Distributed Collaboration is not working in ArcGIS Enterprise 10.9.1 if access to ArcGIS Server (hosting server) Services Directory is disabled.
BUG-000148226	Portal for ArcGIS 10.9.1 and the online distributed collaboration item thumbnail propagation is intermittently working.
ENH-000132203	Allow StoryMaps to be shared through a distributed collaboration between ArcGIS Enterprise to ArcGIS Enterprise and ArcGIS Enterprise and ArcGIS Online.
ENH-000141988	Request to change logging message when Portal for ArcGIS temp directory drive location falls below 10gb and you attempt to sync a Distribute Collaboration.

Home Application

BUG-000123686	Importing users from a .CSV file in Spanish fails when Portal for ArcGIS is secured using Lightweight Directory Access Protocol (LDAP) or Active Directory (AD).
BUG-000126307	Unable to add a document link item in Portal for ArcGIS 10.7+.
BUG-000136909	Sharing items with a custom User role in Portal for ArcGIS prompts a message regarding upgrading sharing level privileges.
BUG-000137557	When an administrator changes the Share setting of another member's item shared to the organization and a group which the administrator is not a member of, the item becomes unshared to the group.
BUG-000140278	Disabling and reenabling a member disables multifactor authentication (MFA) on the member's account.
BUG-000141217	When adding a public feature server service from ArcGIS Server 10.8.1, there is an error connecting to the services.
BUG-000141261	When publishing a Microsoft Excel file as a hosted table, the resulting item initially displays as a hosted feature layer instead of a hosted table.
BUG-000142718	In ArcGIS Enterprise, when the specified password includes the '' character, automatic email notifications do not work and the error message, "AuthenticationFailedException" is returned.

ArcGIS Enterprise 11.0 Issues Addressed List

BUG-000142856	Sharing an item to a group returns the message, "Items owned by a Public Account must be shared to Everyone before sharing to a group" when the member is assigned a custom role without the privilege to share items publicly.
BUG-000142922	Members are able to access the items in the My Favorites tab shared using a group even after leaving the group.
BUG-000143093	Unable to publish a hosted feature layer from a map notes layer.
BUG-000145700	The Azure AD OpenID Connect (OIDC) login fails with the following error message, "Error: Did not receive 'user profile' parameter from the provider."
BUG-000145799	When the Portal for ArcGIS display language is set to any non-English language, the text is missing for the 'Application Extension (AppBuilder)' option on the Content page within the New Item > Application dialog box.
BUG-000148373	The group manager privilege does not update until the page is refreshed.
BUG-000149051	Unable to upload a desktop application (.zip) file greater than 2GB.
BUG-000150416	The download button on a KML item details page points to /home/null when shared with Everyone.
ENH-000130569	Support the ability to add a unique constraint to a field in a hosted feature layer.
ENH-000150417	Add a filter on the Organization > Members page to sort and filter organization members that have multifactor authentication enabled or disabled.
ENH-000150419	Add the ability to create scene, raster, and tile layers that reference data in a used-managed cloud or folder data store.
ENH-000150420	Provide the ability to schedule administrative reports to run automatically daily, weekly, or monthly.
ENH-000150421	Add support for the Bulgarian language in the Home Application.
ENH-000150422	Support new role privileges which allow users to transfer ownership of their content.
ENH-000150423	Support the ability to publish a hosted feature layer from the contents of an OGC GeoPackage file.
ENH-000150424	Improved user experience for configuring routing services to get directions and perform analysis in various apps.
ENH-000150425	Provide the ability to schedule when scene layer caches are to be rebuilt to incorporate edits made to the feature layer when a hosted scene layer has an associated feature layer.

Map Viewer

BUG-000140356	In the Map Viewer, when symbolizing data with 'Counts and Amounts (size)' using a single class, the size range slider becomes unusable.
BUG-000140582	Saving a web map using 'Save As' in Map Viewer does not clone the web map's properties (Terms of Use, Categories, and Credits (Attribution)).
BUG-000141770	In the Map Viewer, the Edit button becomes disabled after adding four layers to a group layer.
BUG-000141829	After saving a filter on a date field with the 'is blank' expression in Map Viewer, the filter can no longer be viewed or edited.
BUG-000143222	Using the 'find' URL parameter on a searchable layer does not work correctly in web maps opened in Map Viewer.

ArcGIS Enterprise 11.0 Issues Addressed List

BUG-000143904	In Map Viewer, the Edit button becomes disabled when multiple editable layers are added to a new group layer.
BUG-000144062	When adding an expression to a filter the operators "in the last" and "not in the last" are not available even if it is a date field is selected.
BUG-000144387	Using the layers= URL parameter in combination with the webmap= parameter when building a custom URL does not add the specified layer to the map in the new Map Viewer.
BUG-000145091	In Portal for ArcGIS 10.9.1, the web maps with an ArcGIS Online hosted layer with related tables fail to save in Map Viewer.
BUG-000146054	The FeatureSet Arcade expressions referring to a layer within a group layer fail.
BUG-000146967	Unable to edit polygon geometry with the z-values of a feature layer published from ArcGIS Pro.
BUG-000147342	The toggle button to enable or disable the background color for the map viewer is not functioning correctly.
BUG-000147970	When an attachment in Map Viewer is added, the following error message, "Oops, something went wrong. Error adding the attachment. Please try again." is returned.
BUG-000148479	Unable to open an Open Geospatial Consortium (OGC), Web Map Tile Service (WMTS) and Web Map Service (WMS) feature layer created from a hosted feature layer in ArcGIS Enterprise Map Viewer.
BUG-000149014	Layers cannot be edited in Map Viewer when all the layers are part of group layers.
ENH-000150426	Provide the ability to apply effects to layers in Map Viewer.
ENH-000150427	Add support for saving and duplicating layers in Map Viewer.
ENH-000150428	Provide capability to create charts in the Map Viewer.
ENH-000150429	Add keyboard shortcuts for completing common workflows quickly within the Map Viewer.
ENH-000150430	In the Map Viewer, allow users to add and configure layers and explore maps without signing into the organization.
ENH-000150431	In the Map Viewer, provide the ability to add a GeoJSON layer from a URL within a web map.
ENH-000150432	In the Map Viewer, provide the ability to author and configure forms for editing feature layers.

Scene Viewer

BUG-000128077	The Dash symbol effect for the Z-enabled polyline feature is not maintained when published as a web scene.
BUG-000141085	Changing the layer's style does not update the feature template in Scene Viewer unless a new feature is added.
BUG-000143051	The features disappear and reappear when moving around with the visibility range set in Portal for ArcGIS Scene Viewer.
BUG-000145654	Unable to match the color of the 3D symbols shared to ArcGIS Enterprise portal using custom style files.
BUG-000148165	In ArcGIS Enterprise, building scene layers cannot be used in Scene Viewer.

ArcGIS Enterprise 11.0 Issues Addressed List

ArcGIS GeoEvent Server

BUG-000114070	Geofences continue to exist although the underlying feature class is deleted from a synchronized feature service.
BUG-000129110	ArcGIS Enterprise server connections without credentials revert to an unusable state when GeoEvent Server is restarted.
BUG-000131681	Update the GeoTagger Processor documentation to specify regarding an event record being emitted for every event record received, instead of when the event record's geometry satisfies the spatial condition specified by the processor.
BUG-000139957	ArcGIS Server connections to an ArcGIS Enterprise portal revert to an ArcGIS Server type when using token authentication.
BUG-000142930	The inbound GeoJSON adapter does not handle arrays of strings as multi-cardinal attribute values.
BUG-000145348	Update GeoEvent Server to replace unpatched Log4j libraries.
BUG-000145938	The Field Mapper Processor in ArcGIS GeoEvent Server 10.9.x does not support expressions with attribute names containing special metacharacters.
BUG-000145944	Event records with one or more null values is not supported in the Send to a Stream Service output connector in GeoEvent Server 10.9.x.
BUG-000146495	Unable to import or synchronize geofences if the Query Definition parameter is unspecified.
BUG-000146611	The Field Enricher Processor query fails when using integer type values in the WHERE clause.
BUG-000148632	When rebooting a Windows Server machine with ArcGIS GeoEvent Server installed, there is a chance of ArcGIS GeoEvent Manager becoming inaccessible.
ENH-000145672	When managing geofences in GeoEvent Manager, set the default where clause parameter for geofence import and synchronization to 1=1.

ArcGIS Insights

BUG-000147751	Date filter cannot be applied on date field for specific layer
BUG-000149175	ArcGIS Insights 10.9.1 with ArcGIS Enterprise portal using GEOAxIS Authentication fails to import .csv files.
BUG-000149374	Copying data to a workbook in ArcGIS Insights through ArcGIS Online returns the following error message, "{"error":{"code":111999}}."
BUG-000149541	Map cards in ArcGIS Insights do not load if the basemap group in Portal for ArcGIS includes a Web Map Tile Service (WMTS).
ENH-000130418	When uploading zipped shapefiles to ArcGIS Insights, please allow Korean language names similar to ArcGIS Online Add Item to Content.

ArcGIS Enterprise 11.0 Issues Addressed List

ArcGIS Mission

BUG-000147915	ArcGIS Mission Responder 10.9.1 on an Android device fails to submit a report if a number field is included and returns the error message, "Report has not been submitted. Please try again."
ENH-000148836	From within Mission Manager Settings, Map Settings icon bar should be formatted as other icon bars when there is no actionable options.

ArcGIS Notebook Server

BUG-000140747	ArcGIS Notebook Server only lists a maximum of 50 tasks in the task list irrespective of the total number of tasks created.
BUG-000141891	Scheduling a weekly Notebook Server task to repeat on or after 12:00 AM UTC causes the date to skip forward by two days.
BUG-000144844	Scheduled tasks do not adjust for daylight savings time
BUG-000146531	Update the ArcGIS Notebook Server documentation to indicate Docker is now a paid subscription in some instances.
BUG-000147723	Update Log4j in ArcGIS Notebook Server to address security vulnerabilities.
BUG-000150371	Downloading a notebook snapshot triggers the "Notebook Disconnected" alert dialogue in Mozilla Firefox.
BUG-000150375	Unable to create notebook tasks in the Arabic locale when the frequency is daily, weekly or monthly.
BUG-000150376	Unable to access ArcGIS Notebook Server Manager as an administrative user with a custom role.
BUG-000150377	In the Notebook editor, "Save As" will remove the existing cells and reset the notebook to the initial template, if the notebook has notebook parameters.
ENH-000143598	Allow the ability for a task in Scheduled Notebook to be automatically ended if it runs for longer than X minutes/hours.
ENH-000150363	For ArcGIS Notebook Server on Windows, provide notebook runtime images as Windows containers, and add support for Mirantis Container Runtime (MCR).
ENH-000150364	Include the Oracle client libraries in notebook runtimes.
ENH-000150365	Create and utilize notebook snapshots for web tools published from notebooks.
ENH-000150367	Include Python package lerc 3.0 in notebook runtimes.
ENH-000150368	Include Python packages that support machine learning and deep learning workflows in notebook runtimes.
ENH-000150369	Inject Webhook payload information in the initial cell of a notebook executed via a Webhook and allow this information to be used in the notebook for further automation.
ENH-000150372	Provide user experience for browsing and inserting Python code snippets in the notebook editor.
ENH-000150373	Provide a dropdown list of units for specifying the default value for notebook parameters of the linear unit type.

ArcGIS Enterprise 11.0 Issues Addressed List

ENH-000150374	Provide a date and time picker for specifying the default value for notebook parameters of the date type.
ENH-000150378	Provide the ability to overwrite a web tool published from a notebook.

ArcGIS Server

Caching

BUG-000143906	Tile services return an HTML error page rather than a JSON response when an invalid token is passed.
BUG-000145924	The visible range of a hosted tile layer on the ArcGIS Online Item Details page does not match with the visibility range configured from ArcGIS Pro.
BUG-000145933	A hosted vector tile layer does not display at certain zoom levels in the ArcGIS Field Maps mobile app.

Disaster Recovery

BUG-000129970	Webgisdr restore fails at ArcGIS Server restore when you have the Microsoft SQL JDBC driver configured used to support ArcGIS Insights.
BUG-000138487	The webgisdr utility does not recognize custom entries in the regionsforcloudstorage.dat file in the framework of Portal for ArcGIS.
BUG-000141271	Missing rollback during a webgisdr utility restore fails and returns the "Failed to delete the database directory" error message.
BUG-000149111	The Portal for ArcGIS certificate keystore is not preserved when a standby machine is rejoining the site during a webgisdr utility restoration in Portal for ArcGIS 10.9.1.
BUG-000150334	Creating an incremental backup will fail if a cloud store is registered.
BUG-000150335	The restore of federated servers with additional server functions may fail while the hosting server is being restored.
ENH-000118106	Improve the error message for missing the [C:\arcgisserver\config-storearcgis-logsettings.json] file when executing the Server Site Export/Import operations.
ENH-000118538	A mechanism should exist to clean up the backed up content and DB folders after an import.
ENH-000135669	Add logic to the webgisdr to prevent export if PORTAL_BACKUP_BLOB_CONTAINER_NAME is equal to AZURE_BLOB_CONTAINER_NAME.

ArcGIS Enterprise 11.0 Issues Addressed List

Documentation

BUG-000141973	Missing backslash in "Create an ArcGIS Enterprise backup" documentation.
BUG-000144407	The incorrect version is linked for the ArcGIS License Manager system requirements on the Portal for ArcGIS 10.9 system requirements in Linux.
ENH-000122314	Add verbiage to highly-available ArcGIS Enterprise deployment documentation that discusses potential complications with using a self-signed certificate with the different components of the deployment.
ENH-000127302	Improve documentation regarding when the WebContextURL should be set.

Enterprise Geodatabase

BUG-000143151	Using ST_Geometry increases processing time when creating a join from a feature class to a table.
BUG-000144420	Reconcile fails with collation conflict error when database collation is different than instance collation.
BUG-000144666	In ArcGIS Pro, the long-running Save Edits operation in a branch version returns the error message, "Save Edits Failed."
BUG-000144828	Versioning a feature class with a Spatial Index V2 index type returns the following error message, ORA-02327: cannot create index on expression with datatype ADT.""
BUG-000145428	Branch versioning reconcile trim delete statement optimization to avoid full fetching all rowids in the sublineage (removing NOT IN subquery).
BUG-000145734	When upgrading the geodatabase to 10.9.1/2.9, the problems are not correctly detected and result in the SDE-Repository corruption of the upgrades.
BUG-000147765	Certification of ODBC 18 for SQL Server connections.
BUG-000148136	Clarify the message when upgrading an AWS RDS geodatabase instance: Unable to Upgrade Postgres Enterprise Geodatabase in AWS RDS. Error: -25 ERROR: must be the owner of relation i14. The sde user cannot perform the upgrade. A user with dbo privileges is required.""
ENH-000125535	Support connection via Azure AD and with multi-factor authentication (MFA) from ArcGIS to Azure SQL Database.
ENH-000146161	Misleading error message "Geodatabase must be enabled as geodatabase admin user" when enabling Enterprise Geodatabase.

ArcGIS Enterprise 11.0 Issues Addressed List

Feature Services

BUG-000143947	The AddToDefinition operation increases in runtime as ArcGIS Data Store is filled with hosted feature services and tables over time.
BUG-000146447	When multiple users are editing the same feature layer with different feature points, the enable editor tracking with archiving does not honor 'last_edited_user' in the record.
BUG-000149811	When adding a feature service containing query layers in ArcGIS Pro, a getEstimates call is returned which results in the error message, "code":500,"message":"Error performing estimates operation","details" returned.
BUG-000150380	The CreateReplica operation with a where clause that uses DateTime errors when the underlying data is stored in SQL Server.
BUG-000150382	Field groups are not available from the feature class data element when including contingent values with the CreateReplica operation.
BUG-000150383	The rollbackOnFailure parameter is not being respected when attribute rules cause an error.
BUG-000150384	For branch versioned sync, User1 cannot update user1's or anonymous features with attachment updates or deletes.
BUG-000150385	Edits applied via sync to a Utilities Networks system tables are not replica tracked.

GeoAnalytics

BUG-000144850	Parquet files containing a Boolean field fail to be recognized in the big data file share.
BUG-000144957	Unable to create feature services with some non-English characters.
BUG-000145139	Parameters aren't visible for GeoAnalytics Tools on some non-English OS installations of ArcGIS GeoAnalytics Server.

Geoprocessing Services

BUG-000123940	Add field support to Geoprocessing Services and Web Tools for choosing a Feature Layer from the map, not from disk.
BUG-000139328	Provide all the geometry types for web tools with feature parameter that are published with user-defined input mode.
ENH-000142351	Provide an overwriteExistingService property in arcpy sharing module GeoprocessingSharingDraft class allowing users to overwrite an existing web tool using Python.

ArcGIS Enterprise 11.0 Issues Addressed List

GIS Server

BUG-000122199	ArcGIS Server still maintains access to the Insights vendor files (.Jar) on an ArcGIS GIS Server installation even after it is removed from a multimachine site returning an error when rejoining it to either the previous ArcGIS Server site or another multimachine site.
BUG-000150331	On Windows 2022, the platform returned by the machines resource says Windows 2019.

High Availability

BUG-000150333	Joining a standby portal will fail if the password contains special characters.
ENH-000118538	Provide functionality in a high availability portal architecture to purge database backup folders based on time or size of the directory.

Linux

BUG-000143153	Native arcpy's arcpy.ClearWorkspaceCache_management() function appears to crash when redirecting stdout to a file.
ENH-000147470	Diagnostic tool "DIAG026: Check processes for ArcGIS core services" always returns a warning on RHEL 8.x.

Location Referencing

BUG-000143813	Selecting events by route in Event Editor does not return point events at the start or end of the route.
BUG-000144531	Running Export Network returns different results if the input layer is stored in a file geodatabase or enterprise geodatabase
BUG-000146038	Reassigning Route Upstream incorrectly updates the route measures.
BUG-000146863	Some style symbols do not appear in the Event Editor Layers pane.
BUG-000147512	A highlighted route cannot be cleared while the Add Line or Add Point event widgets are open in Event Editor.

ArcGIS Enterprise 11.0 Issues Addressed List

Manager

BUG-000146459	Starting from ArcGIS Enterprise 10.8, user interface text from the Edit Configuration Store dialog is incorrectly replicated in all Edit Directory dialogs in ArcGIS Server Manager.
ENH-000150387	Support enabling the OGC Features extension on map services published from ArcGIS Pro in Server Manager.

Network Analysis

BUG-000145762	The route's geometry does not match the route's attribute information in the ArcGIS Enterprise 10.9.1 Network Analyst Vehicle Routing Problem (VRP) solver.
ENH-000134324	Allow Pro Network Analysis layer search tolerance to be modified through the user interface in a way that can carry over into published services.
ENH-000146402	Add the ability for output fields to have default values when publishing Network Analysis services from ArcGIS Pro.
ENH-000146403	Add the ability to set the default Spatial Reference for Routing Analysis Services.

OGC Services

BUG-000147004	The features in the Web Feature Service (WFS) are rendered on the map at the wrong location when the service is published in the ArcGIS Enterprise 10.9.1.

Publishing

BUG-000141203	The supportsCalculate property is set to false when bulk publishing feature services from an enterprise database.
BUG-000147993	Overwriting the hosted feature service created from a CSV utilizing Military Grid Reference System (MGRS) addresses is unsuccessful and crashes the feature service.

ArcGIS Enterprise 11.0 Issues Addressed List

Security

BUG-000097017	When importing a root certificate with a space in the alias name, the process completes successfully but the certificate cannot be accessed.
BUG-000110073	In Portal for ArcGIS, the user interface mentions that the answer to the security question is not case sensitive however it is actually case sensitive.
BUG-000149037	Importing certificates without alias names is possible within ArcGIS Server.
ENH-000137894	For OpenID Connect logins, add support for the use of PKCE during the authorization code exchange.
ENH-000144583	The Cross-Origin Resource Sharing (CORS) request restrictions are not honored for web services via Simple Object Access Protocol (SOAP) and Open Geospatial Consortium (WMS, WFS, etc) URLs.

Installations and Upgrades

BUG 000145201	When upgrading Portal for ArcGIS to version 10.9.1, the self-signed certificates are reverted to default.
ENH 000137393	Provide a real-time status of Portal for ArcGIS upgrade operation.
ENH-000150330	Enable Debug log level when upgrading ArcGIS Server.
ENH-000150436	Enhance the Portal for ArcGIS upgrade experience to communicate status during the upgrade.

Patch Notification

BUG-000147665	Unable to install Linux patches using the 'applypatch' tool when ArcGIS License Manager is already installed.
ENH-000150379	Patch Notification tool does not display the ArcGIS GeoEnrichment Server patches.
