ArcGIS Data Store

Top

BUG-000130912	When validating the ArcGIS Data Store from the Server Administrator Directory, an error "WARNING: Validate: Failed to check layers extent." is returned.
BUG-000135559	Unable to upgrade ArcGIS relational data store if the region of the machine hosting ArcGIS Server and Data Store is changed.
BUG-000162528	A file based tile cache data store backup fails to restore after its upgraded to version 11.2.
BUG-000162950	Configuring backup locations in us-east-1 on AWS fail with invalid region.
BUG-000164209	Webhook processors fail after upgrading the ArcGIS Data Store relational data store to version 11.2.
ENH-000162642	Highly available configurations of the relational data store should show status healthy with warning if replication is not working.

ArcGIS Enterprise Portal

Analysis

Top

BUG-000162737	The Extract Data tool does not honor 'Display extent' as the Processing Extent settings when
	exporting to file geodatabase.
ENH-000167467	Add support for a new analysis tool named Calculate Composite Index.
ENH-000167468	Add support for new time parameters for the Find Point Clusters tool.

ArcGIS Dashboards

BUG-000158805	In ArcGIS Dashboards, the title and other elements supporting rich text such as indicators and lists do not have the HTML abbr tag maintained.
BUG-000163118	The List element in ArcGIS Dashboards does not display when the symbology is changed from 'Single symbol' to 'Unique'.
BUG-000164640	Layers in ArcGIS Dashboards do not load from a disconnected portal deployment due to references to js.arcgis.com.
ENH-000114450	Provide support for 3D scenes in ArcGIS Dashboards.
ENH-000118506	Implement Splash Screen in ArcGIS Dashboards.
ENH-000130882	Support the contains operator in the Category Selector.
ENH-000154058	Provide additional Tab Stops for List and Indicator elements and for Stacked element tabs when working with keyboard navigators in ArcGIS Dashboards.

ArcGIS Experience Builder

BUG-000131950	In the ArcGIS Experience Builder City Explorer shared template, to switch from Fill to Fit is not possible when editing an image in the List widget.
BUG-000139897	On some devices or browsers, embedded videos are autoplay in ArcGIS Experience Builder.
BUG-000141693	Widgets fail to load after reloading the application with multiple feature selections in ArcGIS Experience Builder.
BUG-000141784	In ArcGIS Experience Builder, the image attached in the Card widget is not displaying correctly when viewing it on iPad.
BUG-000142080	Sorting a feature for the Table widget does not sort fields right after exiting from the configuration settings window.
BUG-000143735	Rotating iOS devices from their initial position while viewing Experience Builder apps from a browser tends to remove the bottom edge of the main page while also potentially cutting off image widget pictures.
BUG-000149009	In an Experience on a mobile device, when navigating to a page that contains a Table widget, then going back to the homepage and clicking a Card that contains a link to a different page, the link does not work.
BUG-000149045	The Survey widget in ArcGIS Experience Builder does not honor the Cache answer settings of the survey.
BUG-000150584	The Survey widget in ArcGIS Experience Builder fails to submit when 60 minutes or more have passed since the application was launched.
BUG-000151236	In ArcGIS Experience Builder, the Utility Network Trace widget selections do not trigger the map filter from selection action triggers.
BUG-000151719	Features selected on the map are not getting removed while applying reset to the query in ArcGIS Experience Builder.
BUG-000151729	In ArcGIS Experience Builder, the Bookmarks widget does not honor the 'Daylight' or 'Weather' settings.
BUG-000154390	In ArcGIS Experience Builder, the 'Zoom to' action for the List widget does not work for map image layers in Portal for ArcGIS 10.9.1.
BUG-000154827	XSS vulnerability in the ArcGIS Experience Builder Embed widget.
BUG-000155158	Result Record Count causes the query to not display results when utilizing the Select tool in ArcGIS Experience Builder with a large dataset.
BUG-000156035	After publishing a layer to ArcGIS Online that contains a field with a date and time format, the Filter widget in ArcGIS Experience Builder is unable to filter the field and returns empty results.
BUG-000156676	ArcGIS Experience Builder Query widget exports all source layer fields, even if the fields are not included in the Results filter option of the widget.
BUG-000157540	The initially selected feature and pop-up from the Map widget are retained when selecting the next feature from the List widget in ArcGIS Experience Builder.
BUG-000158319	ArcGIS Experience Builder is allowed to open in edit mode for members with a custom role when the experience is not in a shared update group with the member.
BUG-000158439	The error message, "Your account does not have permission to create or modify content" is returned while trying to view or edit an app created by another administrator account in ArcGIS Experience Builder.

BUG-000159088	The number of features selected by the Select tool on the Map widget in an ArcGIS Experience Builder app is limited to the maxRecordCount property of the feature service.
BUG-000159251	Widgets that have been renamed in ArcGIS Experience Builder cannot have their configuration changed.
BUG-000159280	When editing an experience app, ArcGIS Experience Builder does not allow adding new widgets, and the error message "Cannot read properties of undefined (reading 'manifest')" is returned on the widgets pane.
BUG-000159325	Anchored windows in ArcGIS Experience Builder are not working when the 'Click outside to close window' option is enabled.
BUG-000159402	Features are not filtered when applying a filter on a pie chart in ArcGIS Experience Builder based on a field that has mismatched displayed and coded values.
BUG-000159476	The 'Show/hide columns' tool in the Table widget for ArcGIS Experience Builder does not work on Android devices.
BUG-000159478	The 'Show/hide columns' tool in the Table widget for ArcGIS Experience Builder does not work on iOS devices.
BUG-000159538	When a Map widget is placed within another Map widget (with multiple maps) in ArcGIS Experience Builder, the following error is returned when attempting to switch between the maps: "Failed to execute 'insertBefore' on 'Node': The node before which the new node is to be inserted is not a child of this node."
BUG-000159599	In ArcGIS Experience Builder, the Chart widget does not load as expected and the error message, "Fail to load" is returned.
BUG-000159643	When searching for attributes in the web map widget in ArcGIS Experience Builder, the map is automatically zoomed out to a scale of 1:1000 instead of panned and zoomed directly to the attribute.
BUG-000159657	In ArcGIS Experience Builder, the following error message is returned when the Table widget has sheet(s), "Minified React error #185; visit https://reactjs.org/docs/error-decoder.html?invariant=185 for the full message or use the non-minified dev environment for full errors and additional helpful warnings."
BUG-000159703	When using the line chart in ArcGIS Experience Builder, the color of the value point in the legend is not displayed correctly when the color is changed.
BUG-000159840	Changes to action trigger data sources are not retained for the Search widget in ArcGIS Experience Builder.
BUG-000160023	The framework selection trigger in the Map widget does not filter the Feature Info widget returns when using a referenced feature service from ArcGIS Enterprise 10.9.1 within ArcGIS Experience Builder.
BUG-000160098	Documentation for the ArcGIS Experience Builder Draw widget has insufficient information about 'Relative to ground' and 'On the ground' 3D drawing effect methods.
BUG-000160253	A scrolling page with the Flyer screen group is not zooming in the correct bookmark in ArcGIS Experience Builder.
BUG-000160322	Padding color in the Grid Widget does not preserve the color once published or previewed.
BUG-000160327	The Filter widget in ArcGIS Experience Builder becomes disabled when grouped layers have one data source that is unavailable.
BUG-000160451	When selecting a feature and searching in the Search widget placed outside of the Map widget, the dynamic text retains records of the prior search in the ArcGIS Experience Builder tab.
BUG-000160490	ArcGIS Experience Builder prompts for ArcGIS Online login when an app with a Subscriber content is shared publicly.

	When a leasting fact, use from the user windth a Communication with a hoffen Aug CIC
BUG-000160633	When selecting features from the map using the Query widget with a buffer, ArcGIS Experience Builder fails to include the query results from the buffered area in a linked Table widget.
BUG-000160765	ArcGIS Experience Builder has an XSS vulnerability.
BUG-000160773	Using URL parameters with special characters in ArcGIS Experience Builder returns inconsistent results.
BUG-000161101	The ArcGIS Experience Builder Search widget returns numeric values starting with one ('1') before returning values starting with the search parameters.
BUG-000161121	Grouping values for pie charts in ArcGIS Experience Builder filter data incorrectly when a trigger is set.
BUG-000161251	An image shape reverts to default after navigating to a different page in ArcGIS Experience Builder.
BUG-000161553	In ArcGIS Experience Builder, the Feature Info widget returns an empty result when performing a spatial query with Arcade expression if the feature layer has a geographic coordinate system spatial reference.
BUG-000161734	In ArcGIS Experience Builder, the Map widget displays names for tabs but reverts to random numbers when more than two widgets are added to a single tab.
BUG-000161881	When using ObjectID as the key in the message action of a chart and map, there is a mismatch between the chart and map.
BUG-000161883	The legend in the Widget Controller widget intermittently opens outside of the extent of the experience which causes the app to shift.
BUG-000161897	In ArcGIS Experience Builder, deleting a bookmark in the Bookmark widget makes the bookmark name incorrect in the parameters.
BUG-000161967	The ArcGIS Experience Builder Survey widget fails to submit surveys after idling for one hour or longer.
BUG-000161974	When editing an existing feature record in ArcGIS Experience Builder, the app does recognize the existing geometry unless the app is refreshed, or the 'Auto refresh' option is enabled for the layer.
BUG-000162380	The Analysis widget in ArcGIS Experience Builder does not work when WMS or WMTS layers are used in a web map.
BUG-000162384	Unable to open the dynamic content panel of the Text widget when editing an experience for medium screens.
BUG-000162387	The background of the pop-up box is gray in ArcGIS Experience Builder.
BUG-000162427	Editable fields do not display in the Edit widget in ArcGIS Experience Builder when the 'Attribute only' option is selected.
BUG-000162524	Exporting data from an ArcGIS Experience Builder widget fails when the app is embedded within ArcGIS StoryMaps.
BUG-000162597	When attempting to delete dynamic content in ArcGIS Experience Builder, the Text and List widgets do not allow users to delete it or add more dynamic content.
BUG-000162659	Scene Layers in a different projection than WGS do not display popups in the ArcGIS Experience Builder at lower zoom levels.
BUG-000162684	The output name chosen when running any of the spatial analysis tools from the Analysis widget in ArcGIS Experience Builder is not honored when the result layers are added to the map.
BUG-000162688	Unable to use multiple Edit widgets for one layer in ArcGIS Experience Builder as the widget does not update.

BUG-000162708	Unable to select trigger data when configuring Actions for the Map widget.
BUG-000162729	When an attribute containing HTML tags is selected through the Filter widget, the HTML formatting is correctly displayed in the results list, but the tags are visible when the option is selected.
BUG-000162797	The configured view for an empty selection returns the "No data found." warning message in the Chart widget when 'Category type' is 'By group' in ArcGIS Experience Builder.
BUG-000162887	The Survey widget in ArcGIS Experience Builder displays the name instead of the label when the 'Edit an existing record' mode is configured.
BUG-000162942	In ArcGIS Experience Builder, the 'Show pop-up upon feature selection' option returns a blank pop-up if the feature service used to configure the Search, List, or Table widget was published from ArcGIS Pro.
BUG-000163005	Data that is no longer accessible causes an unexpected login prompt in ArcGIS Experience Builder.
BUG-000163059	Using an Arcade expression in a clustering aggregation feature layer and exporting the web map to ArcGIS Experience Builder results in a no cluster summary appearing in Browse Features and the error, "The information for this feature could not be displayed".
BUG-000163084	Pop-ups stop displaying after being displayed briefly for particular features with binning enabled and a bin size of at least the sixth largest when viewed in ArcGIS Experience Builder.
BUG-000163104	Unable to configure ArcGIS Experience Builder with a single sign-on (SSO) authentication environment.
BUG-000163407	The ArcGIS Experience Builder COUNT operator in the dynamic Text widget does not provide the count when many features (300+) are selected using the Select tool of the Map widget.
BUG-000163556	An ArcGIS Experience Builder experience with a Direction widget still prompts to sign in even when authorized for public access when using the Actions pop-up.
BUG-000163557	If a map service's root REST endpoint URL is added to a map, the pop-up for the first feature selected disappears quickly when interacting with the map in ArcGIS Experience Builder.
BUG-000163690	The Near Me widget becomes slow when adding more than 15 layers for proximity analysis.
BUG-000163706	The ArcGIS Experience Builder Coordinate widget provides the wrong coordinates for degrees decimal minute.
BUG-000163839	Administrators or the owner of an editable hosted feature layer without query capability (when editing settings are configured to 'Add' only and 'Editors can't see any features, even those they add') cannot see features in ArcGIS Experience Builder.
BUG-000163939	When adding a large number of layers (>20) when configuring the Near Me widget in ArcGIS Experience Builder, the experience stops responding and crashes.
BUG-000164150	In ArcGIS Experience Builder, adding a KML file through the Add Data widget returns the error "The file cannot be successfully uploaded."
BUG-000164292	The layer window appears behind the window of the Analysis widget when inside the Widget Controller widget, preventing user selection.
BUG-000164444	In ArcGIS Experience Builder, the pop-up is unresponsive on the first click but opens on the second click for a specific map service.
BUG-000164939	The configuration page for certain widgets in ArcGIS Experience Builder Foldable templates is not available when viewed from the sidebar while editing the application.
BUG-000165166	In ArcGIS Experience Builder, uploading a GeoJSON file using the Add Data widget for an ArcGIS Enterprise environment produces ERROR 000800.
BUG-000165426	In ArcGIS Experience Builder, the Filter widget does not work for a web scene published from ArcGIS Pro to ArcGIS Online.

BUG-000165493	In ArcGIS Experience Builder, the Custom Mobile view configurations returns a 'Cannot read properties of null (reading 'appBuilderSync')' error for View Navigation widgets.
BUG-000165547	In ArcGIS Experience Builder, a List widget connected to an Edit widget by the 'Select data records' action framework connecting with the same layer does not pull the information from the List widget to the Edit widget.
BUG-000165551	In ArcGIS Experience Builder, the dynamic content in List Widget does not appear for "Sum of Intersected Area" when pulling information from the Near Me widget.
BUG-000165603	ArcGIS Experience Builder does not load for ArcGIS Online trial subscriptions.
BUG-000165608	In ArcGIS Experience Builder, the Feature Info widget 'Selected features' view does not display the information for map image layers configured with a join in ArcGIS Pro.
BUG-000165621	A public ArcGIS Experience Builder app prompts for login when including a web scene with a proxy scene layer with stored credentials.
BUG-000165699	In ArcGIS Experience Builder, adding a KML or GeoJSON file through the Add Data widget fails and the following error message, "The file cannot be successfully uploaded." is returned.
ENH-000130296	Provide the ability to automatically displaying pop-ups for selected features in ArcGIS Experience Builder.
ENH-000137373	Add functionality for Group Filter widget to ArcGIS Experience Builder.
ENH-000142464	Provide the ability to use the Shift key to add the features to the current selected features in ArcGIS Experience Builder.
ENH-000145383	Provide users with the ability to customize and edit tooltips for the Chart Widget in ArcGIS Experience Builder.
ENH-000146850	Add support in the ArcGIS Experience Builder Chart Widget to include capabilities to summarize values by split fields.
ENH-000146901	An ArcGIS Experience Builder app must be published before it can be downloaded and deployed to a web server.
ENH-000150230	Provide the functionality to Show a pop-up when the feature or location is found for the search widget in ArcGIS Experience Builder.
ENH-000150608	Add support in ArcGIS Experience Builder for the Map Layers widget to have an option to search and filter for layers.
ENH-000151150	Add "Split by field" option in ArcGIS Experience Builder.
ENH-000151288	Display the number of features in the Table widget in ArcGIS Experience Builder.
ENH-000151747	Allow URL parameters like those in ArcGIS Web AppBuilder to be used to control the map display in ArcGIS Experience Builder.
ENH-000152293	Add the ability to remove the mask and have the fixed window automatically closed before selecting the other choices in the List widget in ArcGIS Experience Builder.
ENH-000153037	Allow editing of related table records in Edit widget in ArcGIS Experience Builder.
ENH-000153909	Add the filter tool to the table widget in ArcGIS Experience Builder so the user can create SQL Expressions, similar to what is available in Web AppBuilder.
ENH-000154487	Support disabling feature selection for specific layers in ArcGIS Experience Builder.
ENH-000155382	Allow the select tool in the ArcGIS Experience Builder map widget to select more than 100 features (points, lines, polygons) at a time.
ENH-000156778	Allow the use of URL parameters when sharing apps built with ArcGIS Experience Builder.
ENH-000157384	In the ArcGIS Experience Builder Directions widget, add an option to route to/from features selected in the Map widget.
ENH-000158009	Enable the ability to Customize layers setting if multiple Map Layers widgets are connected to the same Map widget.

ENH-000158796	Enhance the documentation to explain why "npm ci" should be run after changes or upgrades the NodeJS version on their machine.
ENH-000160179	The Lasso tool should give an option to freehand selection area instead of placing vertices one by one in ArcGIS Experience Builder app.
ENH-000160963	Provide in the search functionality of the Filter Widget the possibility to increase the number of records to be searched in ArcGIS Experience Builder.
ENH-000161357	Update the social media icon for Twitter (bird logo) to "X" on ArcGIS Experience Builder.
ENH-000161548	The ability to use the Shift and Ctrl keys to add and remove features from a selection is absent from the Map widget's Select tool in ArcGIS Experience Builder.
ENH-000162367	Enhance the 'Widget Controller' widget in ArcGIS Experience Builder application to have a minimize button.
ENH-000162456	Move the template selection above the title in the print widget of ArcGIS Experience Builder.
ENH-000163763	Add a loading icon when opening a pop-up from the web map in ArcGIS Experience Builder (similar to Map Viewer).
ENH-000164392	Provide the ability to render calcite components such as calcite notice in ArcGIS Experience Builder custom widgets.
BUG-000131950	In the ArcGIS Experience Builder City Explorer shared template, to switch from Fill to Fit is not possible when editing an image in the List widget.
BUG-000139897	On some devices or browsers, embedded videos are autoplay in ArcGIS Experience Builder.
BUG-000141693	Widgets fail to load after reloading the application with multiple feature selections in ArcGIS Experience Builder.
BUG-000141784	In ArcGIS Experience Builder, the image attached in the Card widget is not displaying correctly when viewing it on iPad.
BUG-000142080	Sorting a feature for the Table widget does not sort fields right after exiting from the configuration settings window.
BUG-000143735	Rotating iOS devices from their initial position while viewing Experience Builder apps from a browser tends to remove the bottom edge of the main page while also potentially cutting off image widget pictures.
BUG-000149009	In an Experience on a mobile device, when navigating to a page that contains a Table widget, then going back to the homepage and clicking a Card that contains a link to a different page, the link does not work.
BUG-000149045	The Survey widget in ArcGIS Experience Builder does not honor the Cache answer settings of the survey.
BUG-000150584	The Survey widget in ArcGIS Experience Builder fails to submit when 60 minutes or more have passed since the application was launched.
BUG-000151236	In ArcGIS Experience Builder, the Utility Network Trace widget selections do not trigger the map filter from selection action triggers.
BUG-000151719	Features selected on the map are not getting removed while applying reset to the query in ArcGIS Experience Builder.
BUG-000151729	In ArcGIS Experience Builder, the Bookmarks widget does not honor the 'Daylight' or 'Weather' settings.
BUG-000154390	In ArcGIS Experience Builder, the 'Zoom to' action for the List widget does not work for map image layers in Portal for ArcGIS 10.9.1.
BUG-000154827	XSS vulnerability in the ArcGIS Experience Builder Embed widget.
BUG-000155158	Result Record Count causes the query to not display results when utilizing the Select tool in ArcGIS Experience Builder with a large dataset.

BUG-000156035	After publishing a layer to ArcGIS Online that contains a field with a date and time format, the Filter widget in ArcGIS Experience Builder is unable to filter the field and returns empty results.
BUG-000156676	ArcGIS Experience Builder Query widget exports all source layer fields, even if the fields are not included in the Results filter option of the widget.
BUG-000157540	The initially selected feature and pop-up from the Map widget are retained when selecting the next feature from the List widget in ArcGIS Experience Builder.
BUG-000158319	ArcGIS Experience Builder is allowed to open in edit mode for members with a custom role when the experience is not in a shared update group with the member.
BUG-000158439	The error message, "Your account does not have permission to create or modify content" is returned while trying to view or edit an app created by another administrator account in ArcGIS Experience Builder.
BUG-000159088	The number of features selected by the Select tool on the Map widget in an ArcGIS Experience Builder app is limited to the maxRecordCount property of the feature service.
BUG-000159251	Widgets that have been renamed in ArcGIS Experience Builder cannot have their configuration changed.
BUG-000159280	When editing an experience app, ArcGIS Experience Builder does not allow adding new widgets, and the error message "Cannot read properties of undefined (reading 'manifest')" is returned on the widgets pane.
BUG-000159325	Anchored windows in ArcGIS Experience Builder are not working when the 'Click outside to close window' option is enabled.
BUG-000159402	Features are not filtered when applying a filter on a pie chart in ArcGIS Experience Builder based on a field that has mismatched displayed and coded values.
BUG-000159476	The 'Show/hide columns' tool in the Table widget for ArcGIS Experience Builder does not work on Android devices.
BUG-000159478	The 'Show/hide columns' tool in the Table widget for ArcGIS Experience Builder does not work on iOS devices.
BUG-000159538	When a Map widget is placed within another Map widget (with multiple maps) in ArcGIS Experience Builder, the following error is returned when attempting to switch between the maps: "Failed to execute 'insertBefore' on 'Node': The node before which the new node is to be inserted is not a child of this node."
BUG-000159599	In ArcGIS Experience Builder, the Chart widget does not load as expected and the error message, "Fail to load" is returned.
BUG-000159643	When searching for attributes in the web map widget in ArcGIS Experience Builder, the map is automatically zoomed out to a scale of 1:1000 instead of panned and zoomed directly to the attribute.
BUG-000159657	In ArcGIS Experience Builder, the following error message is returned when the Table widget has sheet(s), "Minified React error #185; visit https://reactjs.org/docs/error-decoder.html?invariant=185 for the full message or use the non-minified dev environment for full errors and additional helpful warnings."
BUG-000159703	When using the line chart in ArcGIS Experience Builder, the color of the value point in the legend is not displayed correctly when the color is changed.
BUG-000159840	Changes to action trigger data sources are not retained for the Search widget in ArcGIS Experience Builder.
BUG-000160023	The framework selection trigger in the Map widget does not filter the Feature Info widget returns when using a referenced feature service from ArcGIS Enterprise 10.9.1 within ArcGIS Experience Builder.

BUG-000160098	Documentation for the ArcGIS Experience Builder Draw widget has insufficient information about 'Relative to ground' and 'On the ground' 3D drawing effect methods.
BUG-000160253	A scrolling page with the Flyer screen group is not zooming in the correct bookmark in ArcGIS Experience Builder.
BUG-000160322	Padding color in the Grid Widget does not preserve the color once published or previewed.
BUG-000160327	The Filter widget in ArcGIS Experience Builder becomes disabled when grouped layers have one data source that is unavailable.
BUG-000160451	When selecting a feature and searching in the Search widget placed outside of the Map widget, the dynamic text retains records of the prior search in the ArcGIS Experience Builder tab.
BUG-000160490	ArcGIS Experience Builder prompts for ArcGIS Online login when an app with a Subscriber content is shared publicly.
BUG-000160633	When selecting features from the map using the Query widget with a buffer, ArcGIS Experience Builder fails to include the query results from the buffered area in a linked Table widget.
BUG-000160765	ArcGIS Experience Builder has an XSS vulnerability.
BUG-000160773	Using URL parameters with special characters in ArcGIS Experience Builder returns inconsistent results.
BUG-000161101	The ArcGIS Experience Builder Search widget returns numeric values starting with one ('1') before returning values starting with the search parameters.
BUG-000161121	Grouping values for pie charts in ArcGIS Experience Builder filter data incorrectly when a trigger is set.
BUG-000161251	An image shape reverts to default after navigating to a different page in ArcGIS Experience Builder.
BUG-000161553	In ArcGIS Experience Builder, the Feature Info widget returns an empty result when performing a spatial query with Arcade expression if the feature layer has a geographic coordinate system spatial reference.
BUG-000161734	In ArcGIS Experience Builder, the Map widget displays names for tabs but reverts to random numbers when more than two widgets are added to a single tab.
BUG-000161881	When using ObjectID as the key in the message action of a chart and map, there is a mismatch between the chart and map.
BUG-000161883	The legend in the Widget Controller widget intermittently opens outside of the extent of the experience which causes the app to shift.
BUG-000161897	In ArcGIS Experience Builder, deleting a bookmark in the Bookmark widget makes the bookmark name incorrect in the parameters.
BUG-000161967	The ArcGIS Experience Builder Survey widget fails to submit surveys after idling for one hour or longer.
BUG-000161974	When editing an existing feature record in ArcGIS Experience Builder, the app does recognize the existing geometry unless the app is refreshed, or the 'Auto refresh' option is enabled for the layer.
BUG-000162380	The Analysis widget in ArcGIS Experience Builder does not work when WMS or WMTS layers are used in a web map.
BUG-000162384	Unable to open the dynamic content panel of the Text widget when editing an experience for medium screens.
BUG-000162387	The background of the pop-up box is gray in ArcGIS Experience Builder.

BUG-000162427	Editable fields do not display in the Edit widget in ArcGIS Experience Builder when the 'Attribute only' option is selected.
BUG-000162524	Exporting data from an ArcGIS Experience Builder widget fails when the app is embedded within ArcGIS StoryMaps.
BUG-000162597	When attempting to delete dynamic content in ArcGIS Experience Builder, the Text and List widgets do not allow users to delete it or add more dynamic content.
BUG-000162659	Scene Layers in a different projection than WGS do not display popups in the ArcGIS Experience Builder at lower zoom levels.
BUG-000162684	The output name chosen when running any of the spatial analysis tools from the Analysis widget in ArcGIS Experience Builder is not honored when the result layers are added to the map.
BUG-000162688	Unable to use multiple Edit widgets for one layer in ArcGIS Experience Builder as the widget does not update.
BUG-000162708	Unable to select trigger data when configuring Actions for the Map widget.
BUG-000162729	When an attribute containing HTML tags is selected through the Filter widget, the HTML formatting is correctly displayed in the results list, but the tags are visible when the option is selected.
BUG-000162797	The configured view for an empty selection returns the "No data found." warning message in the Chart widget when 'Category type' is 'By group' in ArcGIS Experience Builder.
BUG-000162887	The Survey widget in ArcGIS Experience Builder displays the name instead of the label when the 'Edit an existing record' mode is configured.
BUG-000162942	In ArcGIS Experience Builder, the 'Show pop-up upon feature selection' option returns a blank pop-up if the feature service used to configure the Search, List, or Table widget was published from ArcGIS Pro.
BUG-000163005	Data that is no longer accessible causes an unexpected login prompt in ArcGIS Experience Builder.
BUG-000163059	Using an Arcade expression in a clustering aggregation feature layer and exporting the web map to ArcGIS Experience Builder results in a no cluster summary appearing in Browse Features and the error, "The information for this feature could not be displayed".
BUG-000163084	Pop-ups stop displaying after being displayed briefly for particular features with binning enabled and a bin size of at least the sixth largest when viewed in ArcGIS Experience Builder.
BUG-000163104	Unable to configure ArcGIS Experience Builder with a single sign-on (SSO) authentication environment.
BUG-000163407	The ArcGIS Experience Builder COUNT operator in the dynamic Text widget does not provide the count when many features (300+) are selected using the Select tool of the Map widget.
BUG-000163556	An ArcGIS Experience Builder experience with a Direction widget still prompts to sign in even when authorized for public access when using the Actions pop-up.
BUG-000163557	If a map service's root REST endpoint URL is added to a map, the pop-up for the first feature selected disappears quickly when interacting with the map in ArcGIS Experience Builder.
BUG-000163690	The Near Me widget becomes slow when adding more than 15 layers for proximity analysis.
BUG-000163706	The ArcGIS Experience Builder Coordinate widget provides the wrong coordinates for degrees decimal minute.
BUG-000163839	Administrators or the owner of an editable hosted feature layer without query capability (when editing settings are configured to 'Add' only and 'Editors can't see any features, even those they add') cannot see features in ArcGIS Experience Builder.
BUG-000163939	When adding a large number of layers (>20) when configuring the Near Me widget in ArcGIS Experience Builder, the experience stops responding and crashes.

ENH-000151747	display in ArcGIS Experience Builder.
	Allow URL parameters like those in ArcGIS Web AppBuilder to be used to control the map
ENH-000151288	Display the number of features in the Table widget in ArcGIS Experience Builder.
ENH-000151150	Add "Split by field" option in ArcGIS Experience Builder.
ENH-000150608	Add support in ArcGIS Experience Builder for the Map Layers widget to have an option to search and filter for layers.
ENH-000150230	Provide the functionality to Show a pop-up when the feature or location is found for the search widget in ArcGIS Experience Builder.
ENH-000146901	An ArcGIS Experience Builder app must be published before it can be downloaded and deployed to a web server.
ENH-000146850	Add support in the ArcGIS Experience Builder Chart Widget to include capabilities to summarize values by split fields.
ENH-000145383	Provide users with the ability to customize and edit tooltips for the Chart Widget in ArcGIS Experience Builder.
ENH-000142464	Provide the ability to use the Shift key to add the features to the current selected features in ArcGIS Experience Builder.
ENH-000137373	Add functionality for Group Filter widget to ArcGIS Experience Builder.
ENH-000130296	Provide the ability to automatically displaying pop-ups for selected features in ArcGIS Experience Builder.
BUG-000165699	In ArcGIS Experience Builder, adding a KML or GeoJSON file through the Add Data widget fails and the following error message, "The file cannot be successfully uploaded." is returned.
BUG-000165621	A public ArcGIS Experience Builder app prompts for login when including a web scene with a proxy scene layer with stored credentials.
BUG-000165608	the information for map image layers configured with a join in ArcGIS Pro.
	In ArcGIS Experience Builder, the Feature Info widget 'Selected features' view does not display
BUG-000165603	ArcGIS Experience Builder does not load for ArcGIS Online trial subscriptions.
BUG-000165551	In ArcGIS Experience Builder, the dynamic content in List Widget does not appear for "Sum of Intersected Area" when pulling information from the Near Me widget.
BUG-000165547	records' action framework connecting with the same layer does not pull the information from the List widget to the Edit widget.
	properties of null (reading 'appBuilderSync')' error for View Navigation widgets. In ArcGIS Experience Builder, a List widget connected to an Edit widget by the 'Select data
BUG-000165493	ArcGIS Pro to ArcGIS Online. In ArcGIS Experience Builder, the Custom Mobile view configurations returns a 'Cannot read
BUG-000165426	In ArcGIS Experience Builder, the Filter widget does not work for a web scene published from
BUG-000165166	In ArcGIS Experience Builder, uploading a GeoJSON file using the Add Data widget for an ArcGIS Enterprise environment produces ERROR 000800.
BUG-000164939	The configuration page for certain widgets in ArcGIS Experience Builder Foldable templates is not available when viewed from the sidebar while editing the application.
BUG-000164444	In ArcGIS Experience Builder, the pop-up is unresponsive on the first click but opens on the second click for a specific map service.
BUG-000164292	The layer window appears behind the window of the Analysis widget when inside the Widget Controller widget, preventing user selection.
BUG-000164150	In ArcGIS Experience Builder, adding a KML file through the Add Data widget returns the error "The file cannot be successfully uploaded."

Add the ability to remove the mask and have the fixed window automatically closed before selecting the other choices in the List widget in ArcGIS Experience Builder. Allow editing of related table records in Edit widget in ArcGIS Experience Builder. Add the filter tool to the table widget in ArcGIS Experience Builder so the user can create SQL Expressions, similar to what is available in Web AppBuilder. ENH-000154487 Support disabling feature selection for specific layers in ArcGIS Experience Builder. Allow the select tool in the ArcGIS Experience Builder map widget to select more than 100 features (points, lines, polygons) at a time. ENH-000156778 Allow the use of URL parameters when sharing apps built with ArcGIS Experience Builder. In the ArcGIS Experience Builder Directions widget, add an option to route to/from features selected in the Map widget. ENH-000158009 Enable the ability to Customize layers setting if multiple Map Layers widgets are connected to the same Map widget. Enhance the documentation to explain why "npm ci" should be run after changes or upgrades the NodelS version on their machine. ENH-000160179 The Lasso tool should give an option to freehand selection area instead of placing vertices one by one in ArcGIS Experience Builder app. Provide in the search functionality of the Filter Widget the possibility to increase the number of records to be searched in ArcGIS Experience Builder. ENH-000161357 Update the social media icon for Twitter (bird logo) to "X" on ArcGIS Experience Builder. ENH-000162367 Enhance the "Widget Controller" widget in ArcGIS Experience Builder application to have a minimize button. ENH-000162456 Move the template selection above the title in the print widget of ArcGIS Experience Builder. Add a loading icon when opening a pop-up from the web map in ArcGIS Experience Builder (similar to Map Viewer). Provide the ability to render calcite components such as calcite notice in ArcGIS Experience Builder (similar to Map Viewer).		T

ArcGIS Web AppBuilder

BUG-000128896	The ArcGIS Web AppBuilder edit widget does not honor the edit settings in the web map when the editable hosted feature layers are added to the web map after the edit widget is configured.
BUG-000157001	The Smart Editor widget features with Arcade expressions are not drawing when the attribute table containing 50 fields is open in ArcGIS Web AppBuilder.
BUG-000162335	The Smart Editor widget 'Show drawing options' drop-down menu remains on the screen until the web app is reloaded if the widget is closed while the drop-down menu is visible.
BUG-000164338	In ArcGIS Web AppBuilder, there is a problem when choosing the value in the Smart Editor drop-down menu.

Distributed Collaboration

<u>Top</u>

BUG-000134700	When using Distributed Collaboration to share a hosted feature layer or hosted feature layer view include the sublayer metadata.
BUG-000158888	When using Distributed Collaboration to synchronize a feature class between ArcGIS Enterprise and ArcGIS Online, the request fails with a 413 error.
BUG-000158958	The Distributed Collaboration content filter only shows 25 items despite more being available.
BUG-000163020	Unable to open a PDF item when shared, using Distributed Collaboration, to an ArcGIS Online organization located in an EU or APAC region.
BUG-000164335	Feature service edits fail to by synchronized when the guest in a Distributed Collaboration has a multi-machine deployment architecture.
BUG-000167513	When an item with stored credentials is added to a web map and shared to a distributed collaboration, reference the source item URL in the destination web map.
ENH-000131001	Document best practices for managing Global IDS when content is shared using Distributed Collaboration.

Home Application

BUG-000125220	Unable to access a hosted feature layer view's metadata.
BUG-000135530	In the item details page, the RSS feed for comments returns an incorrect URL.
BUG-000144107	When editing the app launcher's approved applications list, clicking cancel removes all configured custom images.
BUG-000158128	Unable to set the new member default group when the administrator is not the owner and the group is configured to not allow all group members to contribute.
BUG-000161781	Unable to open a hosted tile layer's item details page 10 days after creation.
BUG-000162068	Performance of the group details page degrades as the number of invited members increases.
BUG-000162671	Unable to view the legacy home page until users are authenticated within Portal for ArcGIS.
BUG-000162711	When the search query for members in the group invite member dialog includes a colon ':", do not return Esri system members and honor member filters.
BUG-000164088	Simplified Chinese characters are displayed when the user's language is set to Traditional Chinese Language in an ArcGIS Enterprise portal.
BUG-000165001	When editing the access notice in the organization settings, separate lines of text are saved as HTML tag elements.
BUG-000167501	Edits made to the modern home page are not reflected on the home page in some upgraded Portal for ArcGIS environments.
BUG-000167503	When canSharePublic is false, disable the option for non-administrators to create groups shared to everyone.
BUG-000167544	The home page navigation bar in Portal for ArcGIS does not display correctly after updating the browser to Chrome 127 or Edge 127.
ENH-000135294	Support the ability for a group owner or group manager to receive a notification when a member requests to join their group.

ENH-000140889	Add the ability to get a notification when any user request to join to a group
ENH-000153040	Provide the ability for custom administrators to create administrative groups.
ENH-000158899	Support the ability for members assigned a custom role to create Organization Reports.
ENH-000167500	Support the ability to schedule rebuilding the cache for hosted vector tile layers with associated hosted feature or map image layers.
ENH-000167502	In the Add Members dialog, support names which exceed 40 characters.
ENH-000167504	Support a new metadata editor experience in the ArcGIS Enterprise portal.
ENH-000167505	Add support for administrators to bulk delete multiple members from the ArcGIS Enterprise portal.
ENH-000167506	Support the ability for administrators to block organization members from accessing some Esri apps in ArcGIS Enterprise.
ENH-000167507	Support the ability to update ArcGIS Living Atlas items in your portal when new content is available.
ENH-000167509	Provide the ability to share custom print layout templates with a group and set it as the organization's layout template group to make the templates available for printing in Map Viewer.
ENH-000167510	Support Microsoft's new Entra ID service principal authentication when accessing files in Azure Blob storage containers.
ENH-000167511	For Azure Data Lake Storage Gen2, support SAS token and Entra ID using user-assigned or service principal authentication.
ENH-000167512	Support the ability for the owner of a database data store item and its bulk published layers, to set up a schedule to synchronize bulk published layers with their source datasets.
ENH-000167525	Enable server object extensions (SOEs) and server object interceptors (SOIs) on services from the item details page of map image layers.
ENH-000167686	New military dictionary and hosted web styles have been added to the Esri curated content.
BUG-000125220	Unable to access a hosted feature layer view's metadata.
BUG-000135530	In the item details page, the RSS feed for comments returns an incorrect URL.
BUG-000144107	When editing the app launcher's approved applications list, clicking cancel removes all configured custom images.
BUG-000158128	Unable to set the new member default group when the administrator is not the owner and the group is configured to not allow all group members to contribute.

BUG-000162068	Performance of the group details page degrades as the number of invited members increases.
BUG-000162671	Unable to view the legacy home page until users are authenticated within Portal for ArcGIS.
BUG-000162711	When the search query for members in the group invite member dialog includes a colon ':", do not return Esri system members and honor member filters.
BUG-000164088	Simplified Chinese characters are displayed when the user's language is set to Traditional Chinese Language in an ArcGIS Enterprise portal.
BUG-000165001	When editing the access notice in the organization settings, separate lines of text are saved as HTML tag elements.
BUG-000167501	Edits made to the modern home page are not reflected on the home page in some upgraded Portal for ArcGIS environments.
BUG-000167503	When canSharePublic is false, disable the option for non-administrators to create groups shared to everyone.

BUG-000167544	The home page navigation bar in Portal for ArcGIS does not display correctly after updating the
	browser to Chrome 127 or Edge 127.
ENH-000135294	Support the ability for a group owner or group manager to receive a notification when a
LIVIT 000133234	member requests to join their group.
ENH-000140889	Add the ability to get a notification when any user request to join to a group
ENH-000153040	Provide the ability for custom administrators to create administrative groups.
ENH-000158899	Support the ability for members assigned a custom role to create Organization Reports.
ENUL 0004 67500	Support the ability to schedule rebuilding the cache for hosted vector tile layers with
ENH-000167500	associated hosted feature or map image layers.
ENH-000167502	In the Add Members dialog, support names which exceed 40 characters.
ENH-000167504	Support a new metadata editor experience in the ArcGIS Enterprise portal.
ENUL 0004 67505	Add support for administrators to bulk delete multiple members from the ArcGIS Enterprise
ENH-000167505	portal.
	Support the ability for administrators to block organization members from accessing some Esri
ENH-000167506	apps in ArcGIS Enterprise.
5NUL 000467507	Support the ability to update ArcGIS Living Atlas items in your portal when new content is
ENH-000167507	available.
	Provide the ability to share custom print layout templates with a group and set it as the
ENH-000167509	organization's layout template group to make the templates available for printing in Map
	Viewer.
ENUL 0004 67540	Support Microsoft's new Entra ID service principal authentication when accessing files in Azure
ENH-000167510	Blob storage containers.
ENUL 000467544	For Azure Data Lake Storage Gen2, support SAS token and Entra ID using user-assigned or
ENH-000167511	service principal authentication.
ENH-000167512	Support the ability for the owner of a database data store item and its bulk published layers, to
ENH-00010/512	set up a schedule to synchronize bulk published layers with their source datasets.
ENIL 000167525	Enable server object extensions (SOEs) and server object interceptors (SOIs) on services from
ENH-000167525	the item details page of map image layers.
ENH-000167686	New military dictionary and hosted web styles have been added to the Esri curated content.
	, and the second

Map Viewer

BUG-000144617	The visible range slider does not honor the minScale and maxScale properties configured on a
	map service.
BUG-000156355	Web Feature Services (WFS) working in Map Viewer Classic do not work in Map Viewer and
POG-000120222	return the error message, "WFS Service doesn't support GeoJSON output format".
BUG-000160221	Update sharing prompt persists when a shared map is saved and it is favorited by another
800-000160221	user.
BUG-000164505	There is a delay in launching the 'Add layer from URL' dialog.
BUG-000164535	Unable to populate a field with a name containing the word 'shape' when creating a feature.
BUG-000165944	The new Map Viewer in ArcGIS Enterprise Portal 11.2 fails to Add Layer from URL.
BUG-000167545	The Map Viewer navigation bar in Portal for ArcGIS does not display correctly after updating
BUG-00010/343	the browser to Chrome 127 or Edge 127.

ENH-000167515	Provide ability to view and edit related records for feature-to-feature relationships.
ENH-000167516	Provide ability to browse and add custom 2D web styles in Map Viewer.
ENH-000167517	Provide the ability to set a time zone for the web map.
ENH-000167518	Provide ability to Save and Save As on Group Layer in Map Viewer.
ENH-000167519	Provide ability to create box plots in Map Viewer.
ENH-000167520	Add support for scale threshold on aggregated data in Map Viewer.
ENH-000167521	Expand support for new field types in Map Viewer.

Portal Framework

<u>Top</u>

ENH-000167523	When exporting hosted feature layers from a group as a package, include the sublayer metadata.
ENH-000167524	Support an ArcGIS Portal Administrator REST API to return the total disk space and disk space used for Portal for ArcGIS.
ENH-000167688	Support the ability to query the Portal for ArcGIS logs for ArcGIS Portal Administrator REST API requests by unique request ID.

Scene Viewer

Top

BUG-000155774	Both the Offset Distance and Position parameters are not preserved when an ArcGIS Pro 3D style is published as a web style.
BUG-000157104	Scene Viewer does not honor an organization's default map extent when a custom basemap is added with a custom extent.
BUG-000162840	Unable to enter spaces if the text is pasted into the Title field when saving scenes in Scene Viewer.

Webhooks

Top

BUG-000163459	Updates to Service webhooks are not reflected in the next payload delivery.
---------------	---

ArcGIS GeoEvent Server

BH(3-000110644	Values with decimal places are rounded off intermittently in the output generated while using
	a geoevent definition with double field types and the 'Write to CSV' output.

BUG-000134048	Accessing a HTML page site directly when logging in to ArcGIS GeoEvent Manager returns an error message about the inability to retrieve items as connectors along with a message, 'Your session has expired. Please log-in again.'
BUG-000142579	The GeoEvent documentation needs an updated screenshot of ArcGIS GeoEvent Manager for versions 10.9 and 10.8.1.
BUG-000150544	GeoEvent's 'store latest' feature layer as part of a stream service output fails to query correctly when the TRACK_ID field is an integer.
BUG-000155853	The Field Mapper Processor changes attribute data to a null value for any field name containing a colon.
BUG-000167007	Receive JSON on a WebSocket Connector displays an error indication when added to a GeoEvent Service.
BUG-000167011	The AIS Connector for GeoEvent Server add-on is reporting the incorrect draught.
BUG-000167012	The AIS Connector for GeoEvent Server add-on is reporting the incorrect speed over ground.
ENH-000118471	Provide a message indicating that data store synchronization has completed following "Sync" operation execution in ArcGIS GeoEvent Manager.
ENH-000153972	Documentation of ArcGIS GeoEvent Server is incomplete about ports 2181, 2182, and 2190.

ArcGIS Mission

<u>Top</u>

BUG-000165082	ArcGIS Mission fails to return a helpful error message when creating a site with an invalid
	license.

ArcGIS Notebook Server

BUG-000158689	The Notebook tab is displayed for users without sufficient permissions in Portal for ArcGIS Map Viewer Classic from the navigation ribbon.
BUG-000160560	An error "500 : Internal Server Error" occurs when downloading notebook as "PDF via HTML".
BUG-000163328	Installing Docker Desktop for ArcGIS Notebook Server does not work for Windows Server 2019 with the 4.25.0 release or higher in the URL link provided in the documentation and an error message is returned, "Incompatible Windows version. Docker Desktop requires Windows 10 or higher".
BUG-000167499	Webhook automation for notebooks does not work when two or more members have organization webhooks configured for the same event.
ENH-000167490	Add support for running custom Notebook web tools in Map Viewer.
ENH-000167491	In ArcGIS Notebook Server Manager, provide a visual indicator on whether a machine's disk space is low.
ENH-000167493	From the "Code snippets" pane in the notebook editor, provide the ability to mark Notebook Code Snippet Library items as favorites.
ENH-000167495	For Notebook web tools, add support for file data type as input and output.

ENH-000167496	For ArcGIS Notebook Server, automatically import the root and intermediate certificates from a web server certificate's trust chain as trusted root/intermediate authorities.
ENH-000167497	For ArcGIS Notebook Server on Windows, support Docker Engine from binaries as a container engine.
ENH-000167498	Add support for updating the title of a notebook from the inline title header of the notebook editor.

ArcGIS Server

Caching

<u>Top</u>

BUG-000161319	Vector tile layers sometimes display incomplete or blank tiles at certain scale levels.
BUG-000162445	Registering cloud data stores from ArcGIS Pro to ArcGIS Enterprise fails when using Microsoft Azure or Google providers.

Data Reviewer

<u>Top</u>

BUG-000163312	The Find Event Gaps check does not identify gaps on routes where the event is entirely
	missing.

Disaster Recovery

BUG-000162858	Restore of Workflow Manager Server hosted services using the WebGISDR tool fails to retain _views_ services due to issue in service creation.
BUG-000165312	ArcGIS Server backup.py and restore.py do not restore Active Directory users' roles if they are assigned built-in roles.
BUG-000166445	Attempts to register additional machines during the import site can fail with an 'Admin URL unreachable' exception.
BUG-000166495	The WebGIS DR tool fails to restore a backup that is stored in cloud storage and the content is on the file system.
BUG-000166511	When restoring a Portal for ArcGIS backup, the restore fails when the source and target site directories do not match.
BUG-000167441	The ArcGIS Web Adaptor may become unconfigured during a restore of a highly available portal.

Enterprise Geodatabase

BUG-000103293	ArcSDESQLExecute returns an attribute error for CLOB/NCLOB columns, AttributeError: ArcSDESQLExecute: StreamBindOutputColumn ArcSDE Error -65"."
BUG-000158464	Registering with a geodatabase of a View in SAP HANA returns the error, "ERROR 160333".
BUG-000160005	The Check Geometry tool fails on SDO_Geometry with m-values.
BUG-000160111	Updates to fields being referenced in a layer definition query for a sync replica lead to two inserts of the same object ID in the delta geodatabase and an error message, "UNIQUE constraint failed: T_6_Updates.OBJECTID" is returned during sync download.
BUG-000160411	SQL Server - The Enable Feature Binning" tool fails with the error "Stream Finished" if the feature class is owned by an Operating System Authenticated user."
BUG-000160944	Register with the geodatabase will fail with duplicate column error for a spatial table if the geometric data field is present.
BUG-000160984	The archive table does not get updated as expected when a feature is deleted from the versioned view of the feature class (Oracle using preserve_h option).
BUG-000161662	Invalid ORACLE Database Objects (GDB_ARCHIVE_TRxxx - Trigger) after enabling NV archiving.
BUG-000162081	Change the upgrade enterprise geodatabase logic to update the ST_Within() and ST_Contains() ST_Geometry functions regardless of the PostgreSQL version.
BUG-000162289	Branch versioning query performance.
BUG-000162571	Features with an attachment larger than 1GB fail to publish as hosted feature layers and leave orphaned tables in the ArcGIS Data Store.
BUG-000162973	Remove the option recompile from branch versioned query statements.
BUG-000163254	In ArcGIS Pro, rebuilding a spatial index on a branch versioned feature class changes the index properties from ALLOW_PAGE_LOCKS = OFF to ALLOW_PAGE_LOCKS = ON.
BUG-000163790	Slow performance is observed when opening a web map in ArcGIS Field Maps containing feature layers with data registered as traditional versioned in a PostgreSQL geodatabase and a large number of edits in the delta tables.
BUG-000164147	Joins with duplicate column names with differing column definitions will treat all duplicate columns as if they had the definition of the first one.
BUG-000164367	Allow spatial queries to execute on the primary connection (not the connection pool), set proper cursor attributes and array fetch.
BUG-000164368	Remove the binding used for pagination queries offset and next values.
BUG-000165151	Feature services accessing SAP Hana datastores allow multiple applyEdit calls on the same version in parallel.
BUG-000165688	Enabling topology for the utility network (UN) data coming from the SAP HANA database causes ArcGIS Pro to crash.
BUG-000166701	Upgrading a geodatabase should resolve branch versioning metadata and data inconsistencies.

Feature Services

<u>Top</u>

BUG-000135509	The warning message, "Service has tables that are not ready for sync" is displayed in the server
	log after publishing a map service that has a versioned feature class with no global_id field.
BUG-000158489	Receiving an "Inconsistent data registration types for layers" error when extracting the data of
	a Feature Service having both layers with and without archiving enabled.
BUG-000159857	Synchronizing between several offline areas does not work properly if the
	syncRowsMovedOutsideFilter parameter is set in the service definition of the referenced
	feature layer.
BUG-000167472	Create Point Scene Layer Content geoprocessing tool fails in Russian region language setting
	with decimal input.
BUG-000167473	The queryRelatedRecords does not take the definition expression into account when definition
	expression only true in the destination.

GeoAnalytics

<u>Top</u>

BUG-000161879	The ArcGIS GeoAnalytics Server Summarize Within tool fails on large datasets (more than 1
	million results).

Geoprocessing Services

BUG-000141373	The Append tool fails to execute successfully when published as a web tool to ArcGIS Enterprise.
BUG-000150187	The map image layer generated from the published geoprocessing service does not respect sharing level from its source service.

GIS Server

<u>Top</u>

BUG-000161075	Deleted geoprocessing services are showing up in ArcGIS Server debug logs with the error message "Unable to get service usage timeout for . Defaulting to server directory timeout. GP Service null/ not found." returned.
ENH-000167451	Improve performance of upgrading ArcGIS Server when there are a large number of hosted services.
ENH-000167453	Add support for the usage statistics RequestAvgWaitTime, RequestMaxWaitTime, RequestMinWaitTime.
BUG-000168219	When accessing a map or feature service shared publicly from an ArcGIS Server federated with Portal for ArcGIS, ArcGIS Server may return a 499 token required response if Portal for ArcGIS is down or inaccessible.

High Availability

<u>Top</u>

BUG-000161866	Joining machines back to site during importSite fails due to HTTPS connection refused.
BUG-000163922	ExpirationCheck days for Certificates doesn't reflect the days in the loginformation of operationalhealth.py
BUG-000163978	Incorrect message (OH36) for a federated ArcGIS Server to an ArcGIS Enterprise base deployment (Registration of ArcGIS Data Store to a non-hosting server is not supported. The ArcGIS Data Store components should be unregistered from the site and uninstalled to conserve on system resources).
ENH-000167684	Improve the performance of reconfiguring the standby portal after a failure.

Linux

BUG-000159008	Setting arcpy.mp PictureElement.sourceImage with a URL hangs in Linux.
BUG-000161875	Running geoprocessing tools on a dataset is taking longer on Python 3 than Python 2 in a Linux environment.
BUG-000167460	The opensearch process may not be terminated after uninstalling on Linux.

Manager

<u>Top</u>

ENH-000167454	Add support in ArcGIS Server Manager for registering custom data feeds and creating custom
	data feeds for feature services.
ENH-000167455	Add support in ArcGIS Server Manager for enabling or disabling schema locking for all services
	running shared instances.
ENH-000167457	Add support in ArcGIS Server Manager for registering Microsoft Azure Storage cloud data
	stores with service principal authentication identity type.

Map Services

BUG-000135659	Publishing map services from ArcGIS Pro as shared instances makes the Lock Database Schema option unavailable.
BUG-000140112	Querying a registered map service layer fails when the input geometry is set to 'returnGeometry = false' and 'returnDistinctValues = true'.
BUG-000156380	Unable to query the map service from the REST endpoint using the fully qualified name when applying a join with a feature class and a non-registered table.
BUG-000161507	The identify requests for map services published from mosaic datasets through ArcGIS Pro fail with an error 500, causing dump files to accumulate and fill up disk space.
BUG-000162991	When using the map service export operation with the clipping parameter, the operation crashes.
BUG-000163847	The Digital Elevation Model (DEM) of the mosaic dataset published as map service does not display individual pixel values in ArcGIS Pro.
BUG-000164497	The map service layer REST resource reports False for the supportsPagination flag for BigQuery datasets.
BUG-000164793	The date definition query added in ArcGIS Pro is not querying correctly in Map Viewer when published as a map service.
BUG-000166948	The map service query operation returns integer values for the esriFieldTypeDouble field type for a layer from the BigQuery database.
ENH-000127465	Add the option "Allow assignment of unique numeric IDs for map service publishing" for Relationship Classes.
ENH-000141330	Improve bivariate symbology in ArcGIS Pro to enable mapping by discrete colors and proportional symbols that are combined within the legend for easier map comprehension.
ENH-000167446	Add support for orderBy and returnCountOnly with queryRelatedRecords operations on map services.
ENH-000167447	Add support for new time-aware option, which is static and non-field-driven, for map services.
ENH-000167448	Add support for the new type "Subtype Group Table" for map services.

OGC Services

<u>Top</u>

BUG-000159963	An OGC Web Feature Service (WFS) does not provide the z-value.
BUG-000161060	The WFS GetFeature requests are processed significantly slower by ArcGIS Server 11.1 than
	ArcGIS Server 10.9.1 for large feature classes.
BUG-000162303	A Web Feature Service (WFS) returns invalid MultiPolygon geometries when the output format
	is GeoJSON.
BUG-000165207	When overwriting a map image layer with the Web Map Service (WMS) capability with newly
	added layers, the new layers are missing when printed.

Printing

<u>Top</u>

BUG-000137305	In ArcGIS Pro, the print layouts display the legend box even if there is no content on the map.
	Unable to display a feature layer that uses a unique value rendering configured with
BUG-000157661	Cartographic Information Model (CIM) symbols when exporting a map using the ArcGIS Online
	print service.
BUG-000162944	The Legend tool for image services fails to print when zoomed out.
BUG-000162994	Print service returns a local path instead of a URL when prompted to return a report.
BUG-000162995	The default print service lists two non-existent layout templates.
	A custom printing tool published from ArcGIS Pro 3.0.x or ArcGIS Pro 3.1.x to ArcGIS Enterprise
BUG-000163345	11.1 stops working when ArcGIS Pro is installed in the same machine and upgraded to ArcGIS
	Pro 3.2.
ENH-000166947	The print service should support sort-by and row-limit in table-frame elements in a layout
	template.

Publishing

BUG-000156892	The following error message, "Error 999999" is returned when exporting a file geodatabase
	larger than 10 GB from ArcGIS Enterprise.
BUG-000157481	When publishing a Microsoft Excel file, may encounter an error Fail to set the field type to
	'String'.
BUG-000161487	Unable to publish a CSV file as a hosted feature layer if the number of rows exceed 60,000.
BUG-000163245	Unable to upload a CSV file in Portal for ArcGIS. The error message, "Error analyzing file" is
	returned for any CSV file over 2 KB in size.
BUG-000164817	Publishing a referenced map service containing data from two different database connections
	fails and returns the error, "Failed to create the service.: Updating the server connection string
	for layer failed."

Security

<u>Top</u>

BUG-000162099	The refreshMembership operation with the retrieved enterprise user name returns the error message, "java.lang.Exception: The server at 'https://:7443/arcgis/sharing/rest/community/refreshUserMembership' returned an error. Internal Server Error."
BUG-000164104	When an ArcGIS Online organization has multifactor authentication enabled and enforced, Security Assertion Markup Language (SAML) accounts exempted from the multifactor authentication enforcement return the "Your organization requires Multifactor Authentication (MFA)" prompt after trying to log in to ArcGIS Online in ArcGIS Pro using an external browser.
BUG-000165888	Unable to import a Secure Sockets Layer (SSL) certificate with an unencoded URI in the Authority Information Access for ArcGIS Server.
ENH-000142837	In ArcGIS Enterprise, use the Microsoft Graph API to retrieve Microsoft Entra SAML group memberships larger than 150.
ENH-000145592	Automatically import the root and intermediate certificates from a web server certificate's trust chain as trusted root/intermediate authorities for ArcGIS Server.
ENH-000145593	Automatically import the root and intermediate certificates from a web server certificate's trust chain as trusted root/intermediate authorities for Portal for ArcGIS.
ENH-000152485	In ArcGIS Enterprise, add the ability to pre-invite OpenID Connect users from Microsoft Entra ID.

ArcGIS Web Adaptor

<u>Top</u>

ENH-000167458 Update the ArcGIS Web Adaptor (IIS) to take advantage of .NET 8.0.
--

Installations and Upgrades

BUG-000164769	An ArcGIS Enterprise upgrade to version 11.2 performed with ArcGIS Enterprise Cloud Builder for Microsoft Azure fails when a three-character Microsoft Azure Resource Manager (ARM) prefix is configured.
BUG-000167526	Portal for ArcGIS upgrade fails to display completed state in Enterprise portal website when configured to be highly available.
