

Business Analyst OnlineSM

On-Demand Reports and Maps

Presentation-Quality Reports and Maps Over the Web

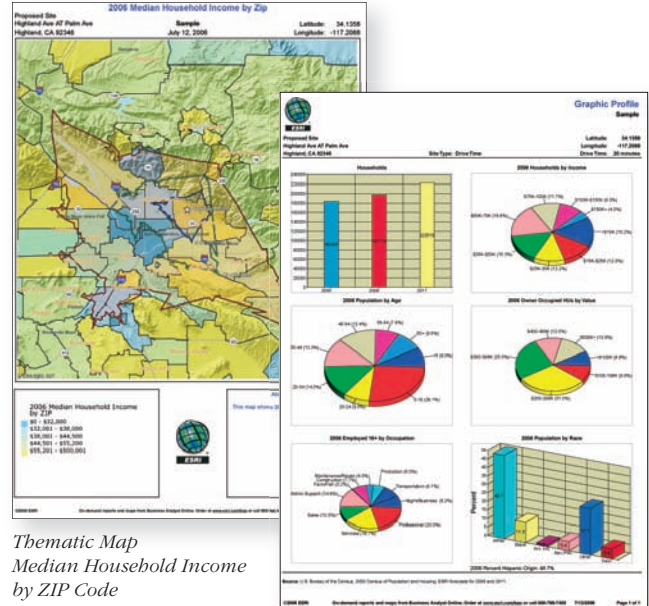

Business Analyst OnlineSM combines geographic information system (GIS) technology with extensive demographic, consumer, and business data to deliver more than 50 reports and maps over the Web. Business Analyst Online is used by retailers, restaurant owners, real estate developers, brokers, business consultants, urban planners, and economic development staff to

- Identify new store locations.
- Analyze trade areas.
- Find new customers.
- Evaluate competitors.
- Reveal untapped markets.

Data and Technology for Mission-Critical Decision Making

Business Analyst Online is a Web-based solution, hosted by ESRI, so you don't have to worry about managing data or technology updates. Business Analyst Online is easy to use, requires minimal training, and is always accessible. Additional features include

- Detailed current-year demographic data with five-year projections
- Complete market segmentation data from ESRI[®] Community[™] Tapestry[™] segmentation system describing consumer lifestyles
- Extensive consumer expenditure and business data
- National aerial photo and satellite imagery
- Thematic mapping to illustrate potential site locations and drive times

Through Business Analyst Online, you can order individual reports and maps via credit card or choose a subscription plan to fit your needs. Reports and maps are delivered directly to your e-mail as a PDF or an Excel[®] file.

For more information about how reports and maps from Business Analyst Online can help you, visit www.esri.com/bao or call **800-447-9778**.

My Business Analyst Online

Customized for Your Organization

Reports and Maps With Your Own Brand and Logo

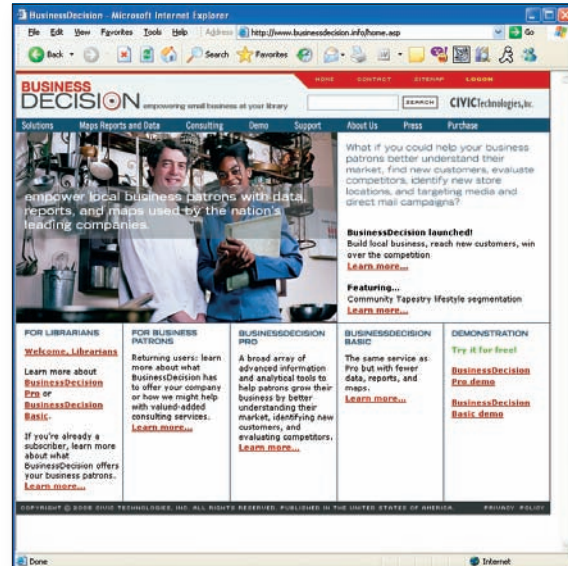

My Business Analyst Online is a customized version of Business Analyst Online. You get all the functionality, data, and maps provided in Business Analyst Online branded with your organization's Web site look and feel.

Through its ArcWebSM Services environment, ESRI can host your version of Business Analyst Online and combine your organization's geographic data, such as store and customer locations or territory definitions, with ESRI's demographic, consumer expenditure, and business data. This allows you and your employees to instantly produce presentation-quality reports and maps that include your data with your organization's logo and colors for use in corporate reports and sales materials.

My Business Analyst Online is a simple, reliable, and affordable solution that provides

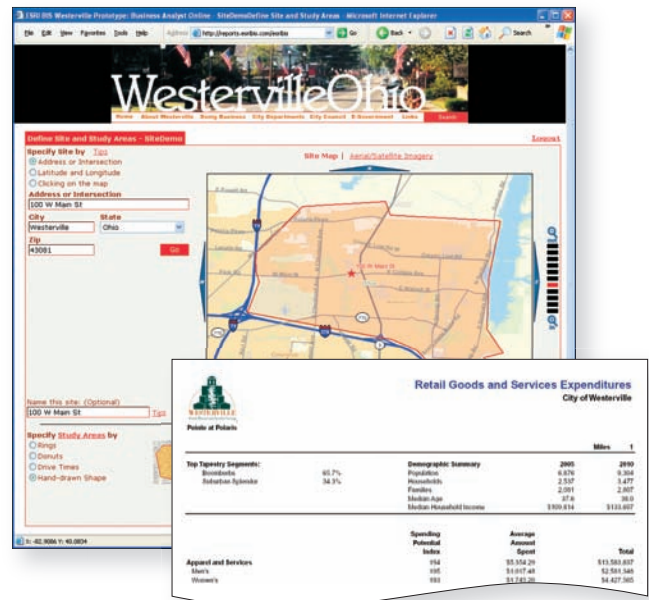

- Your brand and logo on every report and map
- Custom reports and maps based on ESRI's data, your data, or a combination of both
- Custom subscription plans to link your users with specific data and functionality
- Secure logins for authorized users
- Data and application updates managed by ESRI

With My Business Analyst Online, you can manage your own geographic data in ESRI's hosted environment and control the data content you want your users to see.
